

## OBJECTIVES OF FARM FINAL RITES HELD BUREAU EXPLAINED FOR W. A. HICKS

Another Meeting Will be Held Saturday at Courthouse at 2 P. M.

On last Saturday afternoon a number of farmers met in the courthouse and heard Mr. Ottis Kercher, special representative of the American Farm Bureau, explain the objects and purposes of this organization. A temporary organization of Person County farmers was effected, and a call meeting was held Tuesday morning, in order that others might have an opportunity to take part in the work of the N. C. Farm Bureau. There were fifteen present and all of them joined the organization.

There will be another meeting of all interested farmers and business men Saturday afternoon at 2 p. m. All who are interested in getting parity price for tobacco this fall are invited to come and take part in the meeting Saturday afternoon. Come promptly at 2 p. m.

In the meantime, if you wish to discuss the matter of joining the organization, see Mr. C. L. Brooks, secretary-treasurer.

The necessary forms and measuring tapes for measuring crops have not yet been received in the County Agent's office.

The Supervisors will begin work just as soon as these supplies are received. An appeal is made to all farmers to have someone available to carry one end of the chain for the supervisor.

It will also be necessary that the man in charge of the farm or someone who knows the name and crop of each tenant go with the supervisor. This year the whole crop of each tenant, including tobacco, corn, wheat, oats, lespedeza, clover, gardens, and all other crops will be listed separately from that of all other tenants, and it will therefore be necessary that someone go with the supervisor who can point out each field that is tended by each tenant, and give that tenant's name.

The farmers and the supervisors are all anxious to get this work completed, and the work will be started just as soon as the supplies arrive.

Damage done by chinch bugs to corn in Pamlico County is decreasing since the farmers started the control methods advocated by the county farm agent.

## THIRD REUNION FOR FEATHERSTON FAMILIES HELD

Met July 12th at Concord Methodist Episcopal Church. Many Families of Virginia and N. C. Present.

### EVENTS OF INTEREST TOOK PLACE DURING DAY

Many families of Person County and points in both Virginia and North Carolina, descendants of James Wiley Featherston, met July 12th at Concord Methodist Episcopal Church and held a third reunion.

At a few minutes to 11 o'clock the people began to arrive, and as the different ones left their cars they were attracted to a table where each registered and received a slip bearing his name; it was pinned on his left shoulder, thus making a formal introduction unnecessary.

Immediately following everyone's attention was called to the soft strains of music in the church. On entering the church they found that a very interesting program had been planned by a committee, which had been selected at the meeting held in August, 1934. Mrs. C. E. Brooks, the chairman, presided over the meeting in a very gracious manner.

The devotional was conducted by Miss Elsie Denny, of Burlington, N. C. The music, which consisted of both vocal and instrumental selections, were rendered by Mrs. Earl Dameron, of Durham, N. C. who sang two songs, she had her daughter as her accompanist, and Mrs. Wesley Winstead and Miss Nan Lansdal, both of Semora, N. C.

Mrs. Hattie Featherston Denny, of Burlington, gave a most interesting description of her grandfather, James Wiley Featherston. She also called on others, those who remembered him, to relate some personal incident they had experienced or enjoyed.

Miss Annie Belle Crowder, a great-granddaughter, presented the family Coat-of-Arms, and gave a brief historical background of the family and the origin of the name, Featherston. She pointed out that the family is of Saxon origin and that the first one who bore the name was a young Saxon officer who was noted for his gallant conduct in the wars against the Britons during the 5th Century.

### INSURANCE RACKETS

An interesting story telling about fake accidents that swindle insurance companies. One of many feature illustrated articles in the July 26 issue of the American Weekly, the big magazine which comes regularly with the Baltimore Sunday American.

### DROUGHT MAY HELP FARMERS

Minneapolis, Minn. — Despite the trail of ruin left in the wake of the recent drought, agricultural observers advance the belief that farmers who have survived the catastrophe may find in higher grain prices a better revenue than if they had produced bumper crops. Thousands of acres, however, in the "dust bowl" will be abandoned as farms.
