

A. COPELAND CALLEN
Urbana, Illinois
International President

A. Copeland Callen, of Urbana, Illinois, was elected president of Kiwanis International at the Washington, D. C. Convention in June, 1936.

He was first elected to a two-year term on the International Board of Trustees at the Detroit Convention in June, 1932, and was re-elected at Toronto in June, 1934.

Born at Pen Argyl, Pennsylvania, July 17, 1888, he attended the public schools of Bethlehem, Philadelphia, and Reading, graduating from the Reading high school in 1905. He is a graduate of Lehigh University, class of 1909, with the degree of Engineer of Mines, and the degree of Master of Science in 1911.

He became a member of the faculty of the University of Illinois in 1914 and served until 1917 when he was called to West Virginia university as professor of mining engineering and head of the department.

He became a member of Kiwanis during his residence in West Virginia, joining the Morgantown club early in 1921, shortly after the club was organized. He served as president in 1922.

On returning to the University of Illinois he at once affiliated with the Champaign-Urbana club. He was a member of the Board of Directors in 1926 and was elected

president for the year 1927. He served as lieutenant governor of his division during the years 1928 and 1929, and as governor of the Illinois-Eastern Iowa District in 1930.

He was a member of the International Committee on Convention Program in 1930-1931, and was chairman of the committee in 1931-32. He was a member of the International Finance Committee from 1932-36, serving as its chairman the last three years.

In his professional work he is as well known as in Kiwanis. He ranks as one of the leading mining educators of the country, and is the author or co-author of numerous bulletins or technical articles on mining subjects. He is a member of the American Institute of Mining and Metallurgical Engineers and serves on several of its important committees. He is a past president of the West Virginia Coal Mining Institute and of the Illinois Mining Institute.

He has been active in church work, and is a member of the official board of Trinity Methodist Episcopal Church of Urbana, and a member of the board of trustees of the Wesley Foundation at the University of Illinois.

In Masonic circles he is a member of both the York and Scottish Rites, of the Red Cross of Constantine, and of the Shrine. He is a past commander of Morgantown Commandery No. 18, K. T., of West Virginia, a sovereign of Saxa Rubra Conclave No. 2, R. C. C., and is at present orator of Danville Consistory.

In local affairs he has been active in Community Chest work. On the re-organization of the Champaign-Urbana Community Chest Association in 1932 he was elected president, serving for three terms until 1935. During two of these years he also acted as general chairman of the campaign for funds, conducting the drive without outside professional aid. He has just been re-elected a director for a three-year term.

At the University of Illinois, in addition to his teaching and administrative work as head of the Department of Mining and Metallurgical Engineering, he was chairman of the Senate Committee on Athletics and the University's representative on the Big Ten Conference from 1929-36. His college fraternity is Theta Delta Chi, and he is a member of Tau Beta Pi and of Sigma Xi, honorary engineering and scientific fraternities.

HARPER GATTON
Madisonville, Kentucky
Immediate Past International President

Harper Gattton, of Madisonville, Kentucky, was president of Kiwanis International during the convention year 1935-36. He was elected at the San Antonio Convention in May, 1935, after completing five previous years as an official of the service organization.

He was elected vice president at Atlantic City, in July, 1930 and was re-elected in Miami in 1931. Mr. Gattton was first elected an International Trustee in Detroit in June, 1932. He was re-elected to this office at Toronto in June, 1934, but served only one year, being elected International President at San Antonio twelve months later in June, 1935.

He has been a charter member of the Madisonville, Kentucky, club since 1922 and has seen much active service in Kiwanis. He was secretary of his club during 1922-1926, and president in 1927. In 1926 he was made secretary of the Kentucky-Tennessee District and continued to serve in that capacity until elected governor for 1930. He has served on numerous district committees as well as on two International committees, the Committee on Kiwanis Education, appointed by Past President O. Sam Cummings, and the chairman of the Committee on Inter-Club Relations, appointed by the late Past President Horace W. McDavid.

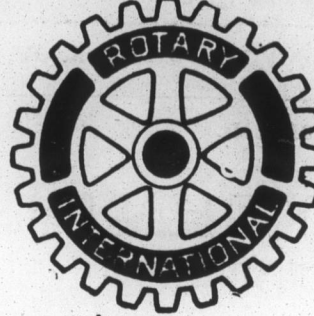

He has been trustee of his college since 1918; trustee of the Kentucky Children's Home Society since 1927; a member of the Kentucky Crippled Children's Commission since 1931; a member of the State Textbook Commission since

1930, chairman since 1934; Director of the Kentucky Education Association since 1928, President in 1933.

In 1933 Mr. Gattton spent twelve months as State Director of the Federal Emergency Relief Administration. He is superintendent of the public schools in Madisonville Community development and other civic affairs have occupied his attention for many years. He is an Elk; Phi Beta Kappa; has been a director of the Madisonville

Chamber of Commerce, of the Madisonville Country Club; Potentate of Rispa Temple Shrine; and Vice President of the Kentucky State Teachers Association.

Stokes County farmers liked the old AAA committeemen so well that they re-elected most of them as committeemen under the new farm program.

KIWANIS MOTTO:

"We Build"

ROTARY MOTTO:

"He Profits Most Who Serves Best"

FARM QUESTIONS ANSWERED

Question: How can I tell whether or not my chickens have worms?

Answer: Unless there is a heavy infestation it is difficult to determine the presence of internal parasites, but where the birds are heavily infested there is usually an extremely heavy appetite, the birds are thin and often a leg weakness will appear. Where these conditions appear it is safe to assume that the birds are infested. When the birds appear listless and there is any doubt as to the trouble it is best to open up several of the subnormal birds and examine the intestines for worms.

Question: At what age should I breed young heifers?

Answer: There is no arbitrary age for breeding heifers. This is usually determined by the maturity of the animal. Heifers that are fed grain liberally in addition to the roughage will mature more rapidly than those on a limited grain ration. Then, too, the breed has a bearing on the freshening time. Jersey and Guernsey heifers, if properly grown out, should be bred to freshen from 24 to 30 months of age. The Holstein and Ayrshire heifers should freshen when from 27 to 32 months old.

Question: How can I rid my rose bushes of the small lice that are killing the plants?

Answer: The aphid of "plant lice" can be controlled by the applica-

tion of a 40 percent nicotine sulphate spray, or by applying a dust made by mixing 12 ounces of the nicotine sulphate solution with two pounds of hydrated lime and eight pounds of dusting sulphur. The 40 percent nicotine sulphate is a commercial mixture and, when used as a spray should be mixed with water at the rate of one teaspoonful to three quarts of water. The small insect known as the thrip is also particularly harmful to roses and may be controlled with the same insecticides.

"I APPRECIATE GOOD DIGESTION!"

SAYS Mlle. LUCY GILLETTE
Daring Circus Aerialist

"Camels stimulate my digestion," she says. Camels help the flow of digestive fluids—increase alkalinity. They set you right!

BOWLING CHAMP. Johnny Murphy (above) says: "For Digestion's Sake—Smoke Camels' works out swell in my case."

GET GULFLUBE—It's "Stripped for action"!

This sprinter can't win races hampered by this outfit! Cheap, poorly refined motor oils are likewise hampered—by waste material—carbon, gum and sludge-formers—that should be removed by further refining.

Now he's less hampered—but not entirely free. Likewise, most 25c oils are rid of some excess waste material—but not enough. For until Gulf perfected its Multi-sol process, a thoroughly refined 25c oil was not available.

Here's the sprinter "stripped for action"—like GULFLUBE MOTOR OIL. Stripped of all excess waste by Multi-sol refining, Gulflube is the finest 25c oil in America! Actually premium quality oil, "all of it goes to work, none of it goes to waste." Try a filling—at the sign of the Orange Disc.
