## Goodrich SAFETY Silvertown

When you buy a tire you are interested in three things—safety, mileage and price. We sell Goodrich Golden Ply Silvertowns because they meet these requirements—a Life-Saver Golden Ply that protects against dangerous high speed blow-outs—a Silvertown tread that resists tail spin skids—every bit of rubber is toughened by special processes to give months of extra mileage. This extra safety and mileage is FREE because Silvertowns cost no more than the other standard tires.

### GOODRICH CHIEFTAIN TIRES

Stick to known quality when you buy low priced tires. Chieftains are standard size and built from carefully selected material. More important, they are backed by Goodrich, America's oldest tire manufacturer.
