

## Fine Increase Reported In Farm Income For The Year 1935

The gross income of North Carolina farmers in 1935 was \$305,122,000, according to figures supplied Dean I. O. Schaub, of State College, by the U. S. Department of Agriculture.

The figure includes benefit payments distributed by the AAA and the value of commodities produced for consumption on the farm.

Cash income from the sale of farm products amounted to \$217,475,000. AAA benefit payments of \$12,293,000 swelled the total cash income to \$229,768,000.

Farm commodities consumed on the farm were conservatively valued at \$75,354,000, the dean stated.

By way of comparison, he said that the 1934 gross income was \$299,075,000, of which \$219,279 was derived from the sale of crops and livestock and \$17,314,000 from AAA payments. Products consumed at home were valued at \$62,482,000.

For both years, the cash income from the sale of farm products was based on returns from 78 crop and 13 livestock items.

The dean pointed out that although the AAA payments was considerably larger in 1934 than in 1935, and the income from cash sales was somewhat larger, the value of commodities produced for home consumption rose from \$62,482,000 in 1934 to \$75,354,000 in 1935.

The greater value of home-consumed products in 1935 was more than enough to offset the slight decrease in cash income, with the result that the gross income increased by \$6,047,000.

All this indicates the trend away from the production of cash crops and toward the production of those things needed on the farm and by the farm family, the dean stated.

In other words, farmers are balancing their farming programs and becoming more self-sufficient.

Rev. Henry Scott Rubel, an Episcopalian minister, writes many of the jokes for Joe Penner, famous radio comedian.

## "CAMEL CARAVAN" BEING BROADCAST FROM HOLLYWOOD

Camels aid digestion, it is pointed out in the current R. J. Reynolds Tobacco Company advertising in newspapers and magazines and by radio. Proof that smoking Camels stimulates the flow of digestive juices was furnished by scientific research conducted at one of the great American Universities, earliest advertisements in the series noted.

The great popularity of Camel Cigarettes at the finest hotels and restaurants has been pointed out in a sustained advertising campaign. Testimony of matre d'hotels and restaurant managers representing fashionable dining places in all parts of the county is quoted in the advertisements. Advertisements also quote athletes, explorers and others who have found Camel Cigarettes beneficial to digestion at all times.

The advertisements also pointed out that Camels are milder, are made from finer and more expensive tobacco.

The new "Camel Caravan" — which is proving the smash hit of the 1936 summer radio season — is now being broadcast from Hollywood. Motion picture stars are featured as guests artists along with Rupert Hughes, famed novelist, and two noted orchestras — Benny Goodman's swing band and Nat Shilkert's orchestra. This radio show is broadcast over the Columbia coast-to-coast network every Tuesday evening.

Eight farmers of Yancey County recently purchased a car of limestone for use this fall. Some of the men borrowed money to pay for the material; others cut and sold cross-ties.

### BROADCASTS CENSOR POLITICS

Washington, D. C. — Increasing vehemence in the Presidential campaign has brought knotty problems to the Federal Communications Commission. Two Los Angeles radio stations have refused time to President Roosevelt's "Fireside Chats" on the score that they are only campaign speeches, and explanations have been demanded from Indianapolis, Pittsburg and Minneapolis stations for alleged discrimination against the Communist Party. To all inquiries, the NBC network states: "We would not cut the President off . . . but we would donate an equal amount of time to the other parties."

### PRINTING TAKES TO WHEELS

New York City — Housed in three baggage cars and a Pullman sleeper painted red, white and blue, a printing exhibit sponsored by the American Type Founders began its 16,000-mile jaunt across country, to consume 100 days. During that time the promoters hope to show 40,000 visitors the newest developments in the printing art.

### SOW SWEET CLOVER

Sweet clover may be sown in the spring, and if the soil is favorable for its growth you can get considerable hog pasture from it during the summer and fall.
