1-MINUTE SAFETY TALKS

By Don Herold

"The makers of that car have put a lot of brains into it, Son. Match theirs with yours"

DON'T GET "OFF" THE AUTOMOBILE

The automobile is here to stay—and I'm glad of it.

There isn't a greater crank in the world than I am on the subject of careful driving, but, at the same time, there isn't a greater friend of the automobile.

The automobile puts zest into modern life. It gives the city dweller the country and it gives the country dweller the city. I thoroughly enjoy a long motor trip. And I don't need to defend the motor car as a pure transportation device for transaction of business and movements of merchandise.

Automobiles are way ahead of most of the people who drive them. The mounting toll of automobile

killings and injuries leads some folks to say that "something will have to be done about automobiles".

I say that something will have to be done about people.

Statistics gathered by The Travelers Insurance Company show that in a relatively small percentage of accidents it is the car's fault. A car is not to blame if its owner has neglected its brakes, lamps or tires—or if he drives like a wild Indian on a rampage.

A car is not to blame if its owner abuses the power it gives him, regards it as a toy instead of a fine transportation instrument, or gets drunk on speed instead of practicing caution and discretion and moderation when he takes the wheel.

Rid Yourself of Kidney Poisons

Do you suffer burning, scanty or too frequent urination, backache, headache, dizziness, swollen feet and ankles? Are you tired, nervous—feel all unstrung and don't know what is wrong?

Then give some thought to your kidneys. Be sure they function properly, for functional kidney disorder permits excess waste to stay in the blood, and to poison and upset the whole system.

Use Doan's Pills. Doan's are for the kidneys only. They are recommended the world over. You can get the genuine, time-tested Doan's at any drug store.
