## **Person County People Have Contributed** Over Seven Hundred Dollars For Relief

# G. C. Hunter, Chairman Red, Cross, States That an Un-limited Amount isNeed-ed For Flood Relief. BIED LAST NIGH

## Collections Taken in Many Churches Sunday

Gordon C. Hunter, Chairman of the Red Cross chapter of Person County, states that this county has been asked to raise all the money that could possibly be raised for flood relief. No limit was placed on the amount.

The first call was for \$120.00, then came the call for \$240.00 and later the Red Cross asked for all that could be obtained.

So far over \$700.00 has been col-lected and the money continues to come.

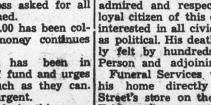

Rev. W. F. West has been in charge of the relief fund and urges all to give as much as they can. The need is very urgent.

Hundreds of people in this coun-ty have been listening over their radios to the station at Louisville and all seem to realize the needs of sufferers all along the Ohio river.

# **E. C. ATKINSON TELLS OF FLOOD** IN LOUISVILLE

Spent Last Saturday and Part of Sunday In Flooded City Speaker at Kiwanis

E. C. Atkinson, Manager of Joyner Chevrolet Co., was the main speaker at the Roxboro Kiwanis Club last Monday night. Mr. Atkinson had just returned from Louisville, Ky., having spent Saturday and part of Sunday in that city.

Mr. Atkinson stated that it was impossible to actually describe conditions as they existed in that city even as early as last Sunday. A large part of the city was flooded by water and thousands of people were without shelter except what was being furnished by the city. Hundreds of homes were covered with water and many places of business were completely destroyed. Drinking water was scarce and all people were urged to use telephones as little as possible.

His discription was very interesting and caused all who heard it to realize even more than before the seriousness of the situation.

Delighted with the gift and amazed that this newspaper is able to award such a worth while presell many pounds less this year sent with the payment of only a one-year subscription at the regular price.

The explanation is simple. The Times is anxious to clean up in a very short time a number of subscriptions now due or past due and to add several hundred new subscriptions. In order to accomplish this very quickly we have gone to a great deal of expense to provide a premium that is needed daily by everyone, a premium that can be used by any and every member of the family, especially valuable to children in school.

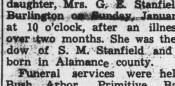

The sets we are offering will prove satisfactory for every writing occasion. The pens are guaranteed by the manufacturer and may be repaired or replaced should such prove necessary. These are the reasons why practically everyone who has had the opportunity to call at this office and see the display have obtained a set.

#### Can Receive Set by Mail

Subscribers living at a distance and those finding it inconvenient to call at the Times' office, may mail their subscription to us while this offer is effective and the set will be mailed to them or to anyone designated. Just add five cents extra to your remittance to take care of the postage.

Offer For Limited Time

The remarkable subscription premium offer is made for only a short time, expiring Thursday, Feb. 18th. Make it a point the very next time you are in town to drop by the Times' office and obtain a set. Remember, you get a set absolutely free by merely paying one year's subscription at the regular price of \$1.00

Woman's Club Meets Feb. 1st.

The regular meeting of the Woman's Club will meet Monday, Feb. 1st at 3:00 o'clock at the Community House. A musical program under the direction of Mrs. W. W. Woods, Chairman of the music department, will be given.

Every member 'is urged to come and bring a frienc.

used, it should be thoroughly burned.

Break the seed bed 4 to 6 inches deep and pulverize until the soil is very fine. After the soil has been pulvarized, broadcast 200 pounds of a 4-8-3 fertilizer to each 100 square yds. and thoroughly mix with the soil. It is best to secure the potash in the above mixture from sulphate of potash.

The seed should be mixed with about two gallons of fertilizer to make a good carrier to insure an even distribution of the seed. Use one level teaspoonful of clean seed per 100 sq. yds. After the seed are sown, the soil should be packed

lightly. A thin layer of wheat straw which has been thoroughly thrashed should be broadcast evenly over the bed. Care should be taken not to get the straw too heavy. Twenty pounds of straw is sufficient for each 100 sq. yds. The straw pre-vents the seed from being beaten into the ground too deep by heavy rains and also keep the top of the

soil moist. The canvas is placed on the straw and pegged to the ground around the edges of the bed. This treatment of the bed, under average seasonal conditions, will give you plants a week or ten days earlier than usual.

RATES ON MONEY ORDERS FOR RELIEF

On October 12, 1936, the Wes-tern Union Telegraph Company put into effect a low flat rate on gift money orders amounting to \$25.00 or less. The flat charge for a gift money order within the United States is 50 cents when the amount to be wired is \$10.00 or less, and 65 cents when the amount is \$10.01 to \$25.00.

The local WU manager states that the above low flat rates will also apply on gift money orders cover-ing flood relief contributions.
