Research Club

The Research Club met at the home of Mrs. E. E. Bradsher's, Wednesday afternoon, on South Main Street.

Spring flowers were arranged beautifully in vases and baskets in the living room where an interesting meeting was held.

Mrs. A. M. Burns, president, presided over the business sessions. The topic for study was Charles Dickens. Mrs. B. G. Clayton reviewed "Charles Dickens" by Stephen Leacock, and Mrs. R. H. Shelton had her subject "Dickens", by Andre Maurios.

The guests were invited into the dining room at the close of the program. Each guest was placed in her respective seat by place cards. Pink roses and ferns formed the centerpiece and pink tapers were placed at each end.

A salad course with coffee followed by a sweet course was served by the hostess, assisted by Mrs. Ben Brown.

Literary Club

Mrs. I. O. Abbott entertained the Thursday Literary Club at her home on Academy Street, Thursday.

A delicious six o'clock dinner was served the guests upon arrival. A short business session was taken up and then an enjoyable program was given. Roll call was answered by naming a favorite novel. Mrs. A. F. Nichols had the main paper, her subject being, "The Scarlet Woman in Literature". This paper was well handled and very interesting.

Auxiliary Meeting

The Ladies Auxiliary of St. Mark's Episcopal Church held its regular meeting, Tuesday evening at the home of Mrs. Bill Timberlake.

The meeting was called to order by the president, Mrs. L. M. Carlton, after which the secretary read the minutes of the last meeting. A general discussion was then had by Mrs. J. Two interesting and instructive papers were given on Africa. One

ON THE LABOR FRONT

Labor unrest in various sections of the country claims major attention in the news. At North Chicago a pitched battle between the police and 100 "sit-down" strikers in the plant of the Fansteel Metallurgical Corporation, with six casualties. President Roosevelt seeks some solution of the deadlock over the Welsh-Healey Act, which is holding up construction on six destroyers and three submarines, because it bans government steel contracts with mills operating more than 40 hours a week, whereas most of the steel industry is on a 44-hour week. Labor agitators seeking unionization of Trenton, N. J., plants are using circulars headed in big type "The President Wants You To Join The Union". In a speech in Georgia, Henry Ford advised all workers to stay out of labor organizations. A man loses his independence when he joins a labor group of any kind."
