PROPERTY CHANGING HANDS IN ROXBORO

Many People Searching For Desirable Lots For House Building

You might call it a real estate boom, or you might call it by some other name, but a large amount of real estate has been changing hands in Roxboro lately.

A majority of these who are buying real estate are doing it for the purpose of building houses. Some of these houses are of the apartment style while others are single houses. At the present time there must be about fifteen or twenty houses either in the construction or planning stages in Roxboro.

Some people are buying land as an investment proposition, others are ready to build at once.

A few people are showing interest in farm land, but that market is not as active as the market in city property.

All Along The Way — All Appears To Be Very Quiet — No News

It has been fairly quiet in Roxboro this week, not very much news, I wandered down North Main St., but had to get on Lamar before I could find much building. From there to Court Street and it looks like the American Legion is going to have one of the nicest huts to be found in this section. Over near the school building there is more building. They say that Roxboro will grow that way.

Back to Main Street of Roxboro, business district. The merchants are talking about their windows. They are going to enter the contest whereby they will have to dress up their windows. W. Gaddy,

Finds Insect Pests Riding Air Liners

Washington, April 6—(A.P.)—Insects, pests and plant diseases are now riding the world's air liners. These threats to farm crops, Secretary Wallace said today in a farm hour broadcast, have been increased by "airplane travel between countries."

He said Federal plant inspectors found 20 species of insects on plant material upon the Graft Zepplin on one of its stops in the United States. Six of the insect species "were not known in this country," he said.

Last year the Bureau of Entomology and plant quarantine inspected 3,000 airplanes from foreign countries at 16 ports of entry, intercepting, Wallace said, "a thousand lots of prohibited plant material."

he's a nice fellow, says that Roxboro should have a white way. Many people are inclined to agree with him and something may be done along that line.

Found Jack Bane talking about the tobacco market for the next season. Jack says that there is no reason why this market should not sell more tobacco than it does. With the help of the people of Person County he is determined to do something about it.

No News—but Roxboro people go on and every now and then a little scandal is created that we can't print.

UNSKILLED LABOR HARD TO FIND

Men Needed For Work On Hurdle Mills Road; Wage Scale Is 25 Cents

According to a report from Mrs. Ethel C. Lipscomb, head of the re-employment service for this section, unskilled labor is very hard to get in Person County.

At the present time men are needed for work on the Hurdle Mills road, but it seems impossible to get the number of men that are required. Fifteen or twenty people are needed on this project at once.

The contractor for this job is furnishing transportation from Roxboro to the work and back, but still no men are applying for the work.

Anyone interested in working is urged to report at the Court house on Thursday, any Thursday from 9:00 a. m. to 1:00 p. m. Re-employment office is on first floor. The pay for unskilled labor is 25 cents per hour.

Unless people from this county respond to this call it is imperative that the contractor go out of the county or perhaps out of the state for labor.

VAGRANCY LAW TO BE ENFORCED HERE

All Persons Without Visible Means of Support Will Be Called upon To Go To Work

From official sources comes the report that the vagrancy law will be enforced in Roxboro starting at once. All men who have no visible means of support will be called upon to go to work and if they do not go to work they will be called upon to go before the judge. Jobs are ready for those who care to work.

One city official stated that it was a hard task to get labor in Roxboro, almost impossible in some cases, yet it looked like there were literally hundreds who were not working. These will be called upon to prove where they are getting a living.

At this time laborers are needed for work on the Hurdle Mills road. So far the contractor has not been able to secure this labor in spite of the fact that many do not have jobs.

SEVERAL PERSON CO. BOYS TO ATTEND JAMBOREE IN JUNE

Approximately 30,000 Scouts From Over the Nation Will Gather In Washington

Interest in the Washington Jamboree has reached a fever here and registrations have been pouring into the scout office. Troops throughout the entire Cherokee Council have been preparing for the Jamboree. Troop 20 of Haw River is leading in the registrations having registered 8 scouts. Many other troops have registered from 1 to 5. The Cherokee Council's quota has been set at 2 troops with a total delegation of 64 scouts to attend the Jamboree.

The National Jamboree is the largest peace-time gathering of youth America has ever seen. It is the largest Scout camp ever established in the western hemisphere.

A city of thirty thousand souls will spring up practically overnight within sight of Washington Monument and the Capital Dome. It will cover more than four hundred acres and will have all the facilities of a modern city, from electricity, running water, garbage disposals, sewage, to hospitals, fire departments, telephone centrals, broadcasting "studios," even a daily newspaper! The city will exist for ten days and then disappear as mysteriously as it came into being.

For ten days thirty thousand Scouts and Scouters from every corner of the United States and from a number of foreign countries will be living together in this tremendous camp.

The camping trip alone will be worth the trip to Washington. Meeting fellow scouts and learning from them their practices will be a unique adventure. All the outstanding Scout campers of America will be present, and as one walks through the multitude of camp sites one will see camping as it is practiced in every section of our country.

There will be an amazing array of tent models, of new set-ups of camp kitchens, and numerous clever camp gadgets. There will be spectacular and simple camp entrance gates, and there will be colorful decorations of tents and novel pieces of camp equipment.

The Jamboree camp in itself will be an amazing event, but besides, an extensive program of activities has been prepared for the Jamboree campers.

The boys from Roxboro and Person County have not yet been named, but it is thought that several will go.
