IF YOU WOULD KNOW WHAT IS GOING ON AROUND YOU READ THE PERSON COUNTY TIMES—IT IS A PAPER FOR ALL THE PEOPLE OF PERSON AND ADJOINING COUNTIES.

VOLUME IX. PUBLISHED EVERY SUNDAY & THURSDAY ROXBORO, NORTH CAROLINA, SUNDAY, MARCH 20, 1938 NUMBER THIRTY - SEVEN

EVERYTHING READY FOR ROXBORO'S BIG CLEAN-UP WEEK

Business Men Of City To Join In And Clean Up Back Yards And Store Rooms

Large List Of Prizes Will Be Given Away

If present plans mature Roxboro will be a clean city by next Saturday night. Mayor Dawes has issued a proclamation stating that March 21-26 is "Clean-Up, Paint-Up and Fix-Up Week" in Roxboro. All citizens are requested to join hands with this movement and clean up around their homes and places of business.

L. K. Walker, Fire Inspector states that the business men of the city have agreed to co-operate and that he expects to see many improvements take place in the business district.

Below is a list of prizes that has been offered by the merchants of Roxboro.

Home Improvement

1st Prize - One electric iron for the home showing the greatest improvement.

TOBACCO QUOTAS TO BE GIVEN APRIL 1

State Office Is Now Apportioning County Quotas From State Quotas,

Cotton and tobacco marketing quotas for individual farmers will probably be announced by April 1 or sooner, according to E. Y. Floyd, AAA executive office at State College.

The state AAA office is now apportioning county quotas from the state quotas, and as soon as these are determined they will be passed on to the county committees.

Under the marketing quotas endorsed by farmers voting in the March 12 referenda, North Carolina has been allotted 572,000 acres of tobacco and 902,000 acres of cotton for 1938.

These allotments will be divided among the cotton and tobacco growing counties according to the acreages of these crops they have been growing in the past.

In calculating individual growers' allotments, county committees will consider the size of the farm, the past production, the suitability of the farm to grow cotton or tobacco, size of the family, amount of equipment on the farm, and other conditions.

A grower's marketing quota of cotton will be all that he can grow on his allotted acreage.

The tobacco marketing quota will be determined from the acreage allotment on a basis of the past average tobacco yield per acre.

Penalties will be imposed upon growers who exceed their quotas.

J. J. Woody Home Again

J. J. "Dick" Woody is much better after having been a patient in Gentry-Williams Hospital for several weeks. Dick has now returned to his home and expects to be out again in a few days.

City Manager Makes Statement

The general health, happiness, life safety and welfare of each of our citizens depends upon wholesome surroundings and good clean living conditions. Winter accumulations in vacant lots, yards, industries and homes are not only disease breeders but potential fire hazards. Our city should stimulate its civic pride by transforming every danger signal into a beauty spot.

Therefore, since the Mayor has designated and proclaimed the week beginning March 21, as Clean-Up Week, I urge upon all civic and trade associations, educational institutions, both private and public, and the citizens in general to take active part in the constructive program planned for community welfare.

JAMES C. HARRIS, City Manager.

COUNTY SCHOOLS CLOSED FOR STATE MEET IN RALEIGH

Large Number Of Teachers Attended 54th. Annual Session Of N. C. E. A. Friday

All of the schools of Person County were closed last Friday afternoon as the teachers of this county attended the 54th annual session of the North Carolina Education Association in Raleigh. A majority of the teachers in this county attended the afternoon and night session and a few remained for the Saturday program.

The session opened Thursday night and meetings continued at a rapid pace all day Friday, Friday night and into Saturday morning.

The first thing that the teachers heard Thursday was that the "people of today are using ideas at least 100 years out of date." This statement was made in an address by Dr. William H. Kilpatrick of Columbia University. He also stressed the need for complete freedom in education.

From 4:30 to 5:30 Friday afternoon Governor and Mrs. Hoey received the teachers at tea in the Governor's mansion.

TWO STORY HOUSE DESTROYED BY FIRE

Another One Story Building Damaged By Fire Last Thursday Night

Fire of an undetermined origin destroyed one house in So. Roxboro Thursday night and did quite a bit of damage to another. The houses were located directly behind King's Palace on the Durham Rd. Fire was discovered between eleven o'clock and twelve o'clock and before the firemen could accomplish much one two-story dwelling had burned to the ground. This building was unoccupied and belonged to the Hall estate.

The second dwelling caught from the first. It was very close to the fire and caught almost immediately. The building was owned and occupied by Jessie Anderson. Although it was not completely destroyed there was considerable damage.

Firemen voted this blaze one of the hottest that they had ever fought. It was impossible to get near enough to play water on the fire for some time after the fire truck arrived. Ca-Vel responded to call and helped in numerous ways.

OPENS NEW GARAGE

Mr. H. W. "Bill" Edwards and Mr. Thomas Fuller will open an auto repair shop Monday.

They will be located back of Bumpass and Day Service Station in the Pass building. The new firm will operate under the name of Fuller-Edwards Garage. Mr. Fuller has been connected with the Ford Dealers here for the past 15 years. Mr. Edwards' experience has been mostly with General Motors products.

It's not too late to top-dress small grain with an application of soda to stimulate quick plant growth.

Proclamation

CLEAN UP - PAINT UP - FIX UP
PLANT UP - GIVE JOBS

Know All Men, Women and Children By These Presents:

THAT Whereas the NATIONAL CLEAN UP, PAINT UP AND FIX UP CAMPAIGN has resulted in many advantages to community life throughout the United States.

In safeguarding HEALTH and SAFETY;
In promoting EMPLOYMENT and THRIFT;
In furthering FIRE PREVENTION;
In promoting BETTER HOUSING;
In stimulating CIVIC PRIDE; and
In making the "HOME AND CITY BEAUTIFUL";

NOW, THEREFORE, Be it known that plans have been perfected for a thorough CLEAN UP, PAINT UP AND FIX UP CAMPAIGN beginning Monday, this date to mark the opening of a real campaign of persistent and constructive effort in cleaning up, fixing up and KEEPING IT UP.

CLEAN, HEALTHY, SAFE
THRIFTY & BEAUTIFUL.

R. B. DAWES,
Mayor of Roxboro, N. C.

There are 1,400 farmers in Ashe County who have qualified for Agricultural Conservation payments for work done in 1937.

Adolf Hitler's Youth Movement Places Prime Emphasis On Physical Education

Present Program Stresses Hand, Heart, and Head In Order Named Instead Of Pre-War Doctrine of Head, Heart and Hand—Only One Youth Movement Now Where There Were One Hundred -- And Everybody Belongs Voluntarily

Editorial Note: In the following article Professor Harold D. Meyer, Kenan traveling professor in the University of North Carolina, who is studying conditions in Europe, gives a clear, concise word picture of how Adolf Hitler has been able to fuse more than one hundred different youth movements into one strong, unified organization to which every youth belongs, even though membership is not exactly compulsory.

By HAROLD D. MEYER

There is in the Reich today only one youth organization. All the boys and girls of Germany belong to this group and it numbers nearly nine millions. There are no other youth groups nor can any others be formed. In keeping with the totalitarian state we find this totalitarian youth group in full unity of organization and program. While it has existed but a few years it has assumed gigantic bases of activity and great magnitude of power.

Its leader, Baldur von Schirach, was appointed by Adolf Hitler in 1931 and in July 1933 effected the present organization. The leaders of modern Germany are fully aware of the values in training youth. Nothing is left undone to assure the success of the program. While these leaders know that a youth movement cannot determine present policies they realize the importance of properly directing the interests and thinking of youth.

Historical Beginnings

Prior to the World War the youth movement in Germany was largely under educational leadership. The program consisted of activities stressing the mental, moral and social interests of youths between the ages of fourteen and twenty-one. They attempted to properly satisfy the leisure hours of youth along educational lines. Although the older generation controlled the situation, often there appeared open revolt within the groups themselves against the traditions of secondary education and the academic grind which took little cognizance of the physical and spiritual needs of the younger generation. The first youth hostels were organized at this time and, many youth clubs and groups were springing up independently all over the country. German youth was turning to nature and hiking along with folk singing and dancing grew very popular. German youngsters were even becoming interested in new religious cults and new political ideas.

DR. CAUDLE TO START WORK IN COUNTY SCHOOLS

Will Do Dental Work Until Closing Of School; Much Work To Be Done In All Schools

OTHER HEALTH NEWS

Dr. Caudle of the State Board of Health, will start dental work in the schools of Person County next Tuesday and will continue this work until the closing of schools. All this work will be in the white schools of Person. Since there was no dentist in the white schools last year there is an unusually large amount of work to be done and Dr. Caudle expects to be very busy. He will arrive in Roxboro Monday and will announce his schedule later. He expects to visit all of the larger schools if that is possible.

There is much interest in the arrival of the state dentist. Parents have been asking about this work for some time and he will receive a warm welcome.

The fluoroscope will arrive in Roxboro on April 6th and patients will be examined in four hour shifts.

Dr. Allen, of the health department, announced last week that 57 patients were being treated for syphilis and that all were taking the treatments unless they were excused. Fifty-one out of fifty-seven were treated last Thursday and the six who were not present had excuses.

It generally takes one year to cure syphilis even in a mild case. Blood tests are given during the year in order to see how the patient is responding.

GOLFERS PLAN A LITTLE DRIVING

Course Looks Inviting And Several Plan To Go Out And Drive In A Few Days

The Country Club Golf Course looks very inviting to a number of local golfers and they plan to go out and drive a few balls over the course.

Four holes are about ready for playing, but there is quite a bit to be done before the entire course is ready. The officials plan to have nine holes before the job is completed and a little more money must be raised before the work can be finished.

This county is going to have a beautiful course. More time will be required, but there is going to be a good course here sooner or later.

Everyone is invited to go out and inspect the work that has been done. More will be accomplished this week.

ALONG THE WAY — ALL APPEARS TO BE QUIET — NO NEWS

This week has been designated as "Clean-Up Week" and there's no reason why we all can't join in and do a good job. The Saturday night bath can be included in the program and scored as one point.

George Cushwa managed to get to the fire last Saturday night. That meant \$2.00 for George. He is a regular fireman and gets a small fee for getting up in the middle of the night. The sad part of it is that he has no car and sometimes has to run two miles to make \$2.00.

Two young men have started in business in Roxboro. Messrs. M. W. Satterfield and S. G. Winstead have opened a real estate office. These boys are going to buy and sell real estate. Best wishes to both, we certainly hope you make the

ENGINEER STRATTON INSPECTS PROPOSED HOSPITAL SITE HERE

Was Due To Arrive On Monday But Called Friday And Stated That He Was On His Way To Roxboro; Lunch Given At Hotel

Commented Favorably On Roxboro's Hospitality

Mr. C. H. Stratton, veterans' administration engineer, arrived here Friday afternoon to inspect sites for the proposed hospital after telephoning Jack Bane, Secretary-Manager of the Chamber of Commerce, that his plans had been changed. Upon his arrival he was taken to lunch at the Roxboro Hotel. The committee having lunch with Mr. Stratton was O. B. McBroom, President of the Chamber of Commerce; Nathan Lunsford, Earl Bradsher and Jack Bane.

Commenting favorably on facilities in Roxboro, particularly the climate, altitude and surrounding scenery, Mr. Stratton said the chief purpose of his preliminary survey is to determine what services would be available to the institution in the 37 communities bidding for it.

The engineer said he had been given a list of 33 communities to call on, and since Monday morning had received several others.

The federal board is composed of high-ranking medical officials in the Army and Navy. Mr. Stratton said his report will be studied by the Federal Hospital Board and a committee from that group will probably make its own inspection of the more favorable locations. He explained that the Federal Hospital Board then must make a recommendation to President Roosevelt for him to make the actual selection.

Secretary Jack Bane of the Chamber of Commerce, submitted a brief on the advantages of Roxboro along with the city and county proposals and told the federal official that one local citizen had offered to give a site on which the hospital could be built.

Mr. Stratton complimented the City of Roxboro upon what he called real southern hospitality. He said he was indeed grateful for services shown him by the committee and the police department, this being the first city he had visited and upon his arrival find police escorts waiting for him with parking space reserved for his car.

Secretary Bane wishes to thank Mr. Charlie Wade and Chief Oliver for their courtesies and efficient service which they showed the federal officer and his driver while visiting Roxboro.

COMMISSIONED NOTARY

Miss Lloyd Moore, Roxboro, was commissioned a notary public last Thursday.

grade, but the youngsters must realize that this old business world is a hard place.

Now that summer is about here the time has arrived for tennis. Gordon Hunter expects to get in shape and will challenge Chas. Wood. Last summer Gordon played Chas. so hard that Chas. fell and sprained his ankle. That gave the victory to our banker—by default. The match will be finished this summer.

Coleman King had hard luck last Thursday night. Two houses caught on fire right behind his place of business, King's Palace, and by the time five hundred gathered the lights were cut off and Coleman had a dark house—results, no sales.
