Set As Deadlines For Ten-
ant Purchase Program.

Applications for loans to tenants under the tenant-purchase program extended to Person County must be filed between August 10 and September 10, Joe Y. Blanks, county supervisor of the Federal Security Administration, announced this week.

Person county is listed among the 50 counties in this state in which the Farm Security Administration will make loans this fiscal year to tenants to buy and improve farms under the Bankhead-Jones Farm Tenant Act.

Mr. Blanks said the counties were designated by the Secretary of Agriculture upon advice of the State Advisory Committee on the basis of types of farming area, prevalence of tenancy and availability of good farm land at fair prices, figured on what the farms well managed can be expected to produce.

Applications for loans with which to buy farms will be made to Mr. Blanks at the Farm Security Administration office which is located in the basement of the Post Office building, Roxboro.

A 3-farmer, county advisory committee will assist the Co. Supervisor, examine applications, appraise farm applicants propose to purchase and recommend applicants qualified for successful farm ownership. Borrowers will have the aid of the Farm Security Administration in building or repairing their houses and in making plans to do better farming.

"These tenant purchase loans will be made to a limited number of qualified tenants, sharecroppers and farm laborers, to purchase and improve family-sized farms and to become more secure in their farming operations by the use of approved farming practices," the County Supervisor pointed out.

Mr. Blanks stated that the tenant purchase program is being carried out by the Farm Security Administration, which agency

Mr. Bullard a native of Columbus county, received the award yesterday from Roy H. Thomas, State supervisor of vocational education. He is the 12th person to be designated as a master teacher of vocational agriculture in North Carolina.

In addition to the certificate, Mr. Bullard will get a free trip to Kansas City in October to attend the national meeting of Future Farmers of America.

Winner of the master teacher award is selected on the basis of the efficiency of his department. Competing this year were 312 teachers of vocational agriculture.

Credit for the high standing of his department is attributed by Mr. Bullard to the close cooperation of Bethel Hill School, community and the teacher of agriculture. He and his students helped to build a long structure in 1933 when they felt the need of a separate building for agriculture. His enrollment in agriculture last year was 88 students, including 40 adults who studied

TAX REFUNDS ARE EXPLAINED

Refund Does Not Include
Cost Of Pounds Bought On
Marketing Cards

The county agent's office, H. K. Sanders revealed this morning, has had several calls from those who bought pounds for the sale of tobacco in 1934 and 1935 after they had read the news articles stating that there would be a refund of tax paid on tobacco under the Kerr-Smith act.

The news article referred only to those farmers who paid tax at the warehouses when they sold tobacco, and received a statement from the warehouse that this tax had been paid. At this time no notice has been received that there will be any refund of the money paid for the pounds bought either from individuals or from the Department of Agriculture.

Those who wish to secure forms to fill out to apply for a refund of tax paid may secure these forms by applying to Mr. C. H. Robertson, Collector of Internal Revenue, Greensboro, N. C.
