GROWERS WARNED AGAINST SELLING ON EXTRA CARDS

Transfer Of Poundage May Be Made Under Special Plan.

Person County farmers were today warned against the practice of selling the tobacco grown on one farm on the allotment card of another farm without first getting it transferred on a special form available at the County Agent's office.

According to the local Farm Agent's office, the allotment for each year is made on the basis of sales during the preceding years. When a grower sells some of his tobacco on the card of another farm, the record becomes inaccurate and the allotment for next year is likely to be short, it was pointed out.

The following letter received by the County Agent from William Collins, chief of the Tobacco Section of the A. A. A., is self explanatory:

"It has been reported to us that some farmers who have tobacco available for marketing in excess of the marketing quota for their farms have sold this tobacco under the marketing quota for another farm without having a transfer of quota made in accordance with the regulations. Under the regulations any warehouseman by whom sales of tobacco are made in this manner is subject to a penalty upon the sale just as though it had been marketed subject to penalty. Also, the marketing card presented to obtain the memorandum of sale becomes invalid.

"It is important that each producer having excess tobacco for sale market that tobacco under the marketing card for his farm

Hosiery Firm Approaches Chamber Commerce Officials

Burlington Firm Would Locate Here With Several Inducements.

Chamber of Commerce officials have been approached by a Full-Fashioned Hosiery manufacturing concern desiring to locate here, Melvin H. Burke, executive secretary, announced this week.

The concern, with headquarters in Burlington, has written Burke of its desire to locate here providing local interests will provide a suitable building and certain other concessions and inducements, notably taxes, etc.

No action on the proposal has been taken as it has not been presented at a formal meeting of the board of directors, Burke said this morning, nor is any expected as Roxboro has never made a practice of providing such inducements.

The offer, it is understood, is one similar to that accepted by Yanceyville last week and reported in this paper Sunday.

The complete letter to Secretary Burke follows:

"I am seriously considering opening a Full-Fashioned Hosiery Mill and am writing to inquire if your city has any inducement to offer to any party interested in locating in your city?"

The main thing I am interested in is tax concession and for the citizens of the town to erect a building and either lease the building or take preferred stock

One House Reports Unofficial Average Of \$27 For Day's Sales.

With tobacco reaching a new high in Roxboro today the market hit its real stride and farmers appeared to be more than well pleased with their sales.

One house reported an unofficial average for today's sale of 27 cents per pound. Others reported excellent sales with good tobacco reaching a new peak. Thirty-five and thirty-eight cents was not an unusual price.

Heavy sales are predicted for Friday of this week and Monday of next week. With the price of tobacco up it is thought that growers will rush the market as rapidly as is possible.

Roxboro is now nearing the one million pound mark and with good sales predicted for next week this market should go well over the million pound mark by Tuesday.

Many farmers have been busy this week with other duties on the farm and for that reason there has not been a large amount of tobacco in Roxboro. The real march to market is now ready to start and a better grade of tobacco than has yet been here is expected.

Roxboro has started out to sell six million pounds this year. The crop will probably be about sold by Thanksgiving and warehousemen hope to have six million in the bag about that time.
