

Coming Jockey—Honor T. R.—French Tribute

1—Warren Yarberry, 17-year-old apprentice jockey from Dallas, Texas, who has been the sensation of the New England and New York race tracks this season. Observers agree that he will become a jockey of the first rank. 2—Daniel Carter Beard, 88-year-old leader of the Boy Scouts of America and personal friend of Theodore Roosevelt, places a wreath at his grave at Oyster Bay, L. I., where he led 6,000 Boy Scouts from seven eastern states on their nineteenth annual pilgrimage. Theodore Roosevelt was the first honorary vice president of the Boy Scouts of America. 3—French youngsters, like this lad, are wearing berets on which is inscribed the name of Chamberlain, English statesman whose peace-making efforts in the Munich conference will go down in history.

UNCLE NATCHEL BACK ON RADIO

Chilean Nitrate Folks Announce Return To The Air Of Broadcasts.

Uncle Natchel is coming back to the radio. This news, just received from the Natural Chilean Nitrate folks, is good news to many thousands of listeners who have been entertained through past winters by the kindly old negro character who is featured in these Chilean Nitrate of Soda broadcasts.

As usual the Uncle Natchel program will consist of songs, natural observations of old Uncle Natchel to his young friends, and dramatized stories dealing with personalities and episodes of the old days of the south. Almost all of the Uncle Natchel stories in the new series of broadcasts are historical — some dealing with the war between the States, some with pre-Revolutionary days and others with the stirring times of the pioneers.

These stories are written by Ethel Parke Richardson, formerly of Nashville, Tenn., for some years a teacher of history and long an authority on early ballads and folk lore of America. The Uncle Natchel role is played by Frank Wilson, considered one of the foremost colored actors in America. He currently appears on Broadway in New York in the play "Kiss the Boys Good-bye" in which Miss Helen Claire, formerly of Union Springs, Ala., who played the feminine lead in the Uncle Natchel programs last season, is scoring a real hit as the featured star.

Miss Claire's successor in the Uncle Natchel series is Miss Jean Dante, a young Virginia girl who has had considerable stage, screen and radio experience. On the stage she has played with Philip Marivale and Gladys Cooper. She has had two years in Hollywood, and in radio has appeared on the Rudy Vallee hour and in Lux Theatre of the Air.

The new Chilean Nitrate series begins the first week in December. On most stations it is broadcast late Sunday afternoons except in the case of WSE, Atlanta, and WSM, Nashville — when it is broadcast from 6:30 to 7 Saturday evenings. A complete list of stations, with broadcast hours, is as follows:

- WIS - Columbia, S. C.
- WSB - Atlanta, Ga.
- WBT - Charlotte, N. C.
- WJDX - Jackson, Miss.
- WMC - Memphis, Tenn.
- WAGF - Dothan, Ala.
- WSFA - Montgomery, Ala.
- WJBY - Gadsden, Ala.
- WPTF - Raleigh, N. C.
- WSM - Nashville, Tenn.
- KWKH - Shreveport, La.
- WRVA - Richmond, Va.
- WWL - New Orleans, La.
- WDBO - Orlando, Fla.
- WJRD - Tuscaloosa, Ala.

In the case of all stations except WSB and WSM, the period of broadcast is late Sunday afternoon. WSB and WSM carry the program Saturday evenings, 6:30 to 7.

The program will continue for approximately six months.

NITRATE OF SODA

A two hundred pound application per acre of nitrate of soda as a side dressing to corn gave the best results in a demonstration conducted by Herbert Woolard of Beaufort County. The corn was first fertilized with 400 pounds of a 3-8-5 mixture and then varying amounts of the nitrate were applied as a side dressing.

ANDREWS WARNS EMPLOYERS

Washington, D. C.—Under the Wages and Hours Law, employers are warned not to reduce overtime payments even when the employe consents to accept a lower figure than provided by law. Administrator Elmer F. Andrews holds that any waiver of wages by the employe is an evasion of the act.

LOWER

In its annual outlook report for farm labor, equipment, and fertilizer, the U. S. Bureau of Agricultural Economics points out that "the combined level of farm wage rates and prices of commodities used in agricultural production probably will average a little lower than in 1938."

CONDEMNED

Although bovine tuberculosis in the United States has been reduced to less than one-half of one percent, this small infection is responsible for many condemnations of animal carcasses and parts in connection with Federal meat inspection.

PLAN NEW USAGE

Producers, ginners, warehousemen, crushers, and merchant-shippers from 15 states gathered at Memphis November 21 to perfect organization of a National Cotton Council to bring cotton consumption closer to the level of production through market expansion and the devising of new uses.

OLDER CLUB MEMBER

Though he is over 70 years of age, J. T. Daniel of Granville county, joined the 4-H corn club this season and has produced 102 bushels of corn on his club acre. He is said to be one of the best farmers in the county.

PEACH ORCHARDS

J. I. and L. P. Musgrave of Stoney Creek, Wayne county, have set 500 peach trees this fall to begin a small commercial orchard. A number of other Wayne farmers are setting home orchards of 50 trees each.

California Prepares for First Gas Execution

California will make first use of its new lethal gas chamber in San Quentin prison when the youngest of a band of seven Folsom convicts whose prison break cost the life of two officials is executed. This picture was taken recently when a pig sacrificed his life in an execution "preview." The pig was pronounced dead 2 minutes and 30 seconds after gas was administered.

Great Britain Hastens Rearmament Program

Obtained by special permission of the war office, this remarkable photograph shows activities in a British shell inspection shop in an armaments factory. Britain is now embarked on a vast program of rearmament in the navy, army and royal air force. Sir Kingsley Wood, air minister, outlining the government's air defense program, told the house of commons that next year's air estimates will be increased to about \$1,000,000,000, compared to about \$600,000,000 in the present year.
