Announce Cast Of Play To Be Given By Dramatic Club

"Life Begins At Sixteen" To Be Presented By High School Club.

Although a number of American novelists and playwrites have portrayed the youngest generation with considerable success and understanding, it is difficult for an adult to comprehend completely the sorrows, ambitions and troubles of youth, according to Mrs. B. G. Clayton, dramatics instructor at Roxboro high school, who made this statement Tuesday between intervals of coaching the cast of the curgins at Sixteen," which will be presented November 14.

Continuing, Mrs. Clayton observed that Booth Tarkington, whose "Seventeen" was produced by the Seniors of Roxboro high school three years ago as the the class play, won great acclaim as an interpreter of youth, and she is of the opinion that Hilda Manning's "Life Begins at Sixdrama has received much favorable criticism.

The Minutes Count In Some Instances

Yesterday afternoon a "Times" reporter found himself helping other people to "Watch

It came about in this wise, afa pleasant visit of some minutes duration in the office of Mrs. T. C. Wagstaff, genial efficient Dirertor of Public Welfare in Person county. As he was leaving, the reporter happened to take one mroe glance at the lady's nearly immaculate desk: on it was a much penciled chart.

In answer to the expected question Mrs. Wagstaff produced a letter from Nathan H. Yelton, director of the Division of Public assistance. Scanning the letter she pointed out this section cf it: "During November your Person County Welfare department has been one of sixteen selected in the state to conduct and file a Time 'Schedule'. This selection has a singular significance in that it is felt your county department, both from the standpoint of administration and the quality of its personnel, is well equipped to conduct a Time Schedule test."

Having read this and made a

copy the newsman then got up courage to look at the chart. On it were items like these:

(1) "Nine to nine-fifteen A. M. looking over mail. (2) Nine-fifteen to ten, personal conference. (3) Ten to eleven, monthly reports. (4) Eleven to eleven-thirty, case worker's report," and so on, all through the day. Yea, while he gazed at the sheet, Mrs. Wagstaff took it out of his hand and penciled, neatly, "Reporter's interview, two-thirty to three P.

It seems that this is one of the ways of testing such things as the number of workers needed, their relative efficiency, etc., and Mrs. Wagstaff seemed to regard it as a compliment that the Person Welfare ofice had been selected as one of the time guinea pigs, but the reporter wonders what the experts would think if they could see his "Time Sheet". How about a "Coca Cola" for instance, or a glance out the win-

But since the facts are Person county and Caswell facts, why not try a less sentimental turn It seems that last week or the first of this week it was reported to the Person County Welfare office that Minerva Lee Wagstaff, an old and familiar Negro resident of the county had died. It also happened that her name had been on the records of the Old Age assistance division of the department and with her death a proper checking of records and filing of reports was in order.

On looking up the initial entry for "Aunt Minerva" the case worker re-discovered the interesting fact that the old woman's birth date had been copied from an ancient family Bible belonging to George Connolly, on whose father's plantation, near Leas-
