VIEWPOINTS MUST BE RE-VISITED BEFORE AMERICAN SAFETY ZONES CAN BE CONSIDERED

Berlin.—Germany informed the Americas that the British and French viewpoint must be "fundamentally revised" before she could consider the American "safety zone."

The German government declared its readiness for a further exchange of thought on the subject but said it saw little hope for success because of the "will of the British and French governments to destroy from the beginning the basic thought of the security zone."

The Nazi position was stated in a note handed to the foreign minister of Panama by the German charge d'affaires there in reply to a protest from the Pan-American neutrality conference on the running battle between the pocket battleship Admiral Graf Spee and three British cruisers off the Uruguayan coast last December.

TOUR OF NEW ENGLAND DISCUSSED BY DANIELS

Mayor Nicks Is Rotary Speaker Thursday Night

Speaking on "Safety on Highways", Mayor S. F. Nicks, Jr., told members of the Roxboro Rotary club at their evening dinner session Thursday night that the problem of highway safety becomes each day more complex, so much so that any reasonable means to promote safety deserves consideration.

In the course of his address, Mr. Nicks, who is an attorney, suggested that some improvement might be effected through the enactment of a law providing that each driver, in case of accident or collision, should be liable for damages to the extent of the valuation of his own machine, it being Mr. Nick's opinion that such a law could be more effectual in the checking of irresponsible driving than a compulsory insurance measure.

Mr. Nicks was presented by the program chairman, J. D. Mangum. Following a brief business session President R. B. Griffin announced that the club will again meet next week at Hotel Roxboro.

The measure discussed by Mr. Nicks was first outlined by him some two months ago and was at that time presented in local and daily newspapers.

Put Teague and Cy Kirby in the class that do not like snow. The recent heavy snow crushed the roof of their garage building and now they are having to spend some of their hard earned money to get things repaired. It would really be bad if these boys did not have much money, but since they do they might as well spend it to help relieve unemployment.

E. B. Craven, Jr. had the misfortune to lose his water heater during the last cold spell. The cost of a new one was \$12.00. Then he had to buy a ton of coal. The cost of that was \$8.00. E. B. was in the hole \$20.00 and didn't know where to get the money. So he decided that he might win the \$20.00 Jack Pot at the theatre on Wednesday night. He went to the theatre, won the Jack Pot and went home happy.

Wallace Woods is doing O. K. as secretary of the local Chamber of Commerce. His first big venture was to stage Dollar Days. Someone said he decided to put these days on for his own benefit. Said that Wallace was getting short of money and decided that it was time to buy a few bargains. Then he jumped in and asked the merchants to help.
