Land Bank Loans Being Amortized In Southern Area

Columbia, S. C., April 11—Over 13,000 Federal land bank and land bank commissioner loans

Mesdames Mitchell, McBroom, Berry Entertain Miss Louise Foushee

have been reamortized for longer terms in North Carolina, South Carolina, Georgia and Florida, according to a statement today by Julian H. Scarborough, president of the Federal Land Bank of Columbia.

Most of the reamortization applied to Commissioner loans. Mr. Scarborough said. These loans, he said, were originally amortized for relatively short periods and required principal payments that heavily encumbered farmers found impossible to meet. He expressed the belief that reamortization over a longer period of years would re-establish the soundness of the loans.

In North Carolina 3,156 loans have been reamortized; in South Carolina 2,595; in Georgia 5,737 and in Florida 2,023, making a total for the four states of 13,511, Mr. Scarborough said.

Mr. Scarborough said that reamortization of the loans had given many heavily indebted farmers a new lease on life and they are taking greater interest in their properties because of the opportunity to remain on the land and re-establish their equities.

High score for the evening was won by Mrs. Henry Gates. To Miss Foushee the three hostesses presented silver in her wedding pattern. She also received a shower of attractive gifts from the guests present.

Familiar Words Used In Classic

"We call the world we live in civilized," says the leading character in the current screen offering. "Yet men are using all their energies to destroy one another. A little man with an insane ambition has set out to conquer Europe, not caring that a million young men will be killed as a result."

Sounds familiar, doesn't it? Yet the speaker isn't mentioning present-day conditions. He is Thomas Mitchell, famous character actor currently playing the resolute father in "Swiss Family Robinson", now showing at the Palace Theatre; and the "little man" he refers to is Napoleon—for the period is that of 1811, when the Little Corporal was threatening the domination of the whole European Continent.

The dialogue is part of Mitchell's in the film, when he makes up his mind to take his family away from the hectic and snobbish society of London and to seek a new career for them in far-away Australia.
