

Fertilizer Law May Be Amended

Raleigh, N. C. Feb. 27—Changes the State Fertilizer Law to give farmers greater protection, to decrease the use of sand in various grades and simplify information on plant food guarantees," will be sought in the 1941 General Assembly, D. S. Coltrane, assistants to the Commissioner of Agriculture, said today.

He explained that under proposed changes, the number of grades of fertilizer will be reduced and greater use of grades recommended by the N. C. Experiment Station will be promoted.

Features of the proposed measure include provisions to: (1) State water insoluble and nitrate nitrogen guarantees "in percentage of the total," rather in decimals, so as to furnish farmers accurate and understandable information on plant food guarantees; (2) permit the use of "not less than 35 and not more than 50 grades of fertilizer," which would eliminate many

useless grades, and should result in promoting economy for both farmer and manufacturer; (3) increase the units of plant food from 14 to 16 which would eliminate thousands of tons of worthless sand filler that is now costing farmers \$10 to \$12 a ton; (4) require that goods be stamped "net weight" rather than "weight" under the old law; (5) Prohibit a manufacturer from lowering the quality of any established, registered brand; (6) require basic slag to be guaranteed as to both total and available phosphoric acid; (7) narrow tolerances for deficiency of plant food guaranteed, strengthening the penalty provisions; (8) give options to the manufacturer to guarantee minimum per cent of magnesium oxide and calcium oxide, as well as minimum sulphur guarantees in general crop fertilizers; (9) change the provisions under which fertilizer grades are registered; (10) provide that penalties be assessed on each plant food deficiency, disallowing excess in any one unit of plant food to cover the deficiency of any other ingredient guaranteed; (11) require, if claimed, both a maximum and minimum sulphur guarantee in tobacco fertilizer.

FEED

Many of the older residents say that Granville County has more feed on hand this winter than any time they can remember, reports C. V. Morgan, farm agent.

Legal Notice

TRUSTEE'S SALE

Under and by virtue of the terms of that deed of trust executed by N. V. Brooks and wife Maggie H. Brooks on the 2nd day of March, 1937, and recorded in Book 8, page 507, in the office of Register of Deeds of Person County, default having been made in the payment of the bond secured thereby, and upon request of the holder thereof, I will as trustee:

On Saturday, March 15th, 1941, at twelve o'clock noon at the Court-house door in Roxboro, North Carolina, sell to the highest bidder at public auction for cash the following real estate bounded and described as follows:

That certain lot or parcel of land lying and being on the South side of the Roxboro-Olive Hill public road and fronting 261 feet on said road, said lot being composed of lots Nos. 5 and 6 as shown by map and survey of Winstead Park, recorded in Book 22, page 410, Register's Office, Person County, and being the lots upon which the grantors have recently erected a new dwelling, said lots above mentioned being in Block A as shown by the aforesaid plat. See deed from A. Lipshitz and wife to O. L. Satterfield, Book 21, page 486, and deed from O. L. Satterfield and wife, to N. V. Brooks in Book 35, page 139, and deed from A. Lipshitz and wife to J. M. O'Briant and H. W. Winstead Book 21, page 475, deed from H. W. Winstead to J. M. O'Briant, Book 22, page 478, and deed from J. M. O'Briant, to O. L. Satterfield, Book 27, page 17, which are made a part of this description.

The purchaser will be required to deposit 10% of the purchase price on the day of sale as evidence of good faith.

This the 12th day of February, 1941.

T. F. Davis, Trustee,
2-20-41.

This New
Kingsdown

I liked the COMFORT EYELET that does away with lumpy tufts and buttons . . . the HOURLY GLASS COILS, that quickly equalize themselves to any person's weight and still provide cushioned support to any part of the body because they're independently hinged . . . the DOUBLE-STRENGTH EDGE that prevents the mattress edge from sagging. But what finally convinced me was the new Mattress Scoring Chart. It's the clearest, most accurate guide to quality I've ever seen. When I used it to compare all features of the Kingsdown with other mattresses, I decided the Kingsdown offered me value that couldn't be equalled.

Uncle Natchel says—

IT'S GOOD BECAUSE IT'S NATCHEL- AND NATCHEL THINGS IS BEST

YES, CHILEAN SODA is good because it's "Natchel"—the only natural nitrate in the world. It's good for all crops, before planting or after. It's particularly profitable for side-dressing and top-dressing. It acts quickly, picks the crop up and pushes it to early maturity.

Use Natural Chilean Soda under your crops . . . for top-dressing and side-dressing, too. Give them the full benefit of all its natural fertilizing and soil-improving qualities.

Be sure you get
NATURAL CHILEAN NITRATE OF SODA
