The affair, under supervision of W. B. MacManus, camp superintendent, and Lt. Charles L. Large Contribution Received From Individual. New Emblem, Of Small Design, Now On Sale.

Making report for the week ending Friday, Mrs. G. I. Prillaman, chairman of the Roxboro unit of the British War Relief society, yesterday said that largest cash contribution for the week was \$25 from W. W. Morrell, of this city.

Along The Way With the Editor

Called upon once more to prescribe without pay, the writer turns mental hygienist and offers both individual and blanket treatment. Men's souls are being tried in places other than in Europe: the more youthful of the populace of Roxboro are showing war-nerves, and under our very eyes their arteries are growing brittle.

To "Slick" Merritt alone it is suggested, that more effort be put forth, and that keener and more refreshing ideas be engendered for this column. Escape is advised for the rest.

The two shut-in personalities E. G. Thompson and D. D. Long are on the verge of a nervous breakdown unless their social horizon is extended. Bill Montague ought to confine himself to the milder forms of physical exercise, not to exceed walking; Doctor Hedgpeh should drive his car over 30 m. p. h. along dirt roads and furnish himself a dash in excitement; while F. O. Carver, Jr. should let fall his cloak of melodrama, and reveal the truly modest spirit that is his. By the bye, he should edit this column once a year, providing himself with an annual spring-unburdening.

In general, the male element here and over the state should engage in occasional tiffs at poker. The ladies should mellow their exciting emulation at bridge playing by seizing from each other—at choice moments—personal news-morsels and all conversational tid-bits.

This admonition is served out gratis, but further details can be had from the writer by halting him at any time on the street, more conveniently in a downpour of rain.

Privy Project Emphasis Will Be In Brooksdale And To Durham County Line. Second Renewal Granted.

Person Health department officials yesterday reported that the WPA Privy project, in operation in Person County since July 1, 1938, is being continued without interruption and that under a grant of funds for its continuance particular emphasis will be placed on that area of the county in radius of the Durham, Oxford and Danville highways.

Confirmation of the appropriation allocated to the Privy project was made by E. J. Wood, Jr., chief engineer, Raleigh, in a letter written by William A. Sutton, office engineer, Durham district WPA, who sent copies to officials here and to S. R. Whitten, working supervisor.

The original privy project expired some several months ago and was renewed at vigorous request from Person residents. This renewal, scheduled to have expired Thursday, is officially extended through tomorrow, May 12, and work to be done at Brooksdale and in areas previously mentioned will constitute still another renewal, it is reported, although important factor is that the work will go forward without interruption.

Sanitarian George E. Murphy, of the Person Health Department, reviewing past work of the project, said that over 1,500 Person citizens have taken advantage of the privy project plan since it was placed in operation, that owners of property are only required to furnish materials for construction of privies and that all labor in connection is furnished by WPA.

The coming of warmer weather, said Mr. Murphy, especially increases sanitation hazards where proper facilities are not supplied, and all persons who can do so are urged to avail themselves of opportunities presented.
