The Wagon Rolled

Last Sunday afternoon found eighteen golfers awaiting a large rubber tired wagon to carry them to the golf course, a distance of five miles. The wagon was soon ready and the boys all climbed aboard. It had everyone from a state senator, mill executive, chief of police or what do you want. The wagon required about fifty minutes to make the trip.

All of the boys reported a big time and they will probably want to do it again. Of course they do not claim that it was as good as a car, but it did beat not going there at all. The team was furnished through the courtesy of Bennett and Winstead, local mule dealers of this city. Bill Winstead went along just to see that everything was O. K. He does not play golf but if he is to go with the crowd each Sunday he might as well get a few sticks and a ball or so. Just as soon as he tries it the bug will bite and the country club will have another member.

In the meantime golfers are hoping that the gas situation will not be so serious by the time spring comes and that they will be allowed to play for pleasure driving.

Fishing Contest Winners Told By L. R. Wilson

Western Auto Supply Company has announced prize winners of its sixth annual nation-wide Big Bass Fishing Contest which closed September 30. Prizes valued at \$4,500 are being presented to 177 winners in addition to 32 trophy cups.

For the past six years, Western Auto Supply company has conducted this contest in 36 states east of the Rocky Mountains where Western Auto stores and Western Auto associate stores may be found. Men, women and children have been winners in these contests.

The nationally-known tackle prizes offered in each state for the largest bass entered are valued at \$40.00 for the first prize, \$30.00 for the second prize, \$25.00 for the third prize, \$15.00 for the fourth prize and \$12.00 for the fifth prize. In addition, for the largest small mouth bass registered in each state, the company is presenting a special trophy cup.

The prize winners in North Carolina are as follows:

First prize winner: Jack Noneman, Raleigh, 11 lbs. 2 oz.; second prize winner, George G. Best, Charlotte, 10 lbs. 8 oz.; third prize winner, H. Antoine F. Alciatore, Ft. Bragg, 10 lbs.; fourth prize winner, Mark Saunders, Red Springs, 10 lbs.; fifth prize winner, Payton Lewis, Gastonia, 9 lbs. 10 oz., and Trophy winner is Mark Saunders, Red Springs, 10 lbs.

In most instances, these prizes are being presented to the winners personally by Western Auto Store or the Western Auto Associate Store in which the contestant originally registered.

The largest bass reported in the contest was entered in Florida and weighed 13 lbs. 12 oz. The smallest prize winner was entered in West Virginia and weighed 2 lbs. 15 oz.

The seventh annual Big Bass Fishing contest to be sponsored by Western Auto Supply company, which was originally scheduled for 1943 will be postponed due to the war.

This contest was run in Roxboro by L. R. Wilson, owner, Western Auto Associate Store.

Women in the German-occupied Netherlands can buy only four pairs of stockings a year.

It is estimated that Japan suffers four minor earthquake shocks every day.

All motor vehicle assembly plants in New Zealand are working 100 per cent on war production.

GOLFERS GO IN WAGON—GET 'EM FLAT

(continued from front page)

A majority of the floggers were pleased with the trip and indicated their desire to do it again next Sunday and some even suggested that a wagon leave here for the course every Saturday and Sunday afternoon.

Among those making the trip were Phil Thomas, Sam B. Winstead, Tom Woody, Haywood Slaughter, Sam Merritt, Charlie Harris, Pat Robinson, Lee Weathers, of Shelby, Gordon Brown, Newton Day, Thomas Bowles, John Morris, Lester Clayton, Earl Bradsher, Sr., Tobey Ledbetter, Billy Harris, Tom Brooks, and a colored driver and Bill Winstead, who had charge of the team.

PLEASURE BAN VIOLATIONS WILL BE CHECKED HERE

(continued from front page)

for week-end Mayor's court. These cases were: Charles Terrell, 20, assault, bound over to Recorder's Court under \$50 bond; Richard Green, 40, Negro, drunk, \$8.25, and Dallas Waddell, 22, charged with being drunk and disorderly, \$8.25.

Rulings on pleasure driving are causing much concern here, with emphasis being on definitions of what is and what is not under the ban.

Thomas also issued a statement on "C" gasoline coupons for defense plant workers, saying that each holder of a C book who works in any defense plant employing 100 or more persons must obtain a letter from the special board set up in that plant for the purpose, stating the number of miles per day he has to drive to work and the number of days he work per week. This letter must be presented to the local ration board at the time application for supplementary gasoline is made. No new C books, Mr. Thomas said, will be issued in the future without this information from all defense workers who need gasoline in an amount above the A allotment.

Farmers Now Signing 1943 AAA Farm Plans

Farmers in every county of the State now are signing 1943 farm plans stating whether or not they intend to cooperate in the 1943 AAA program, according to G. T. Scott, Chairman of The State AAA Committee.

Reports received at the State AAA Office show that through January 9, a total of 161,139 farmers had been interviewed, and of this number 159,699 indicated they will participate in

Person Rationing Board Bulletin

By Person County Rationing Board

How to use your new ration book to buy canned or bottled fruits, vegetables, soups, and juices; frozen fruits and vegetables; dried fruits.

1. The government has set the date for rationing to come within the next few weeks. It will be necessary on or after that date to carry your war ration Book No. 2 with you when you want to purchase processed foods.

2. Before you buy, notice the posters placed in your grocers store and buy according to the number of points per article. The point value will be the same on identical articles in all stores but this does not determine the price or nutritional value.

3. When you buy take the correct amount of Blue stamps from your book in front of the grocer. It is advisable to use larger stamps first. For example if a food costs 13 points, it is better to give the grocer a 5 and an 8 than many stamps of smaller value. You can combine the stamps from all books belonging to your family.

4. Every person in your household will receive a total of 48 points. This means that you may use all these for processed foods for one ration period. All the blue stamps marked A, B, C, are for the first period. When you have used all of your stamps you may not apply for more during that period.

We cannot afford to waste food or to give some individuals more than their share—that is why it will be necessary to ration processed foods. To receive the most benefit from your book learn the proper nutritional values and buy accordingly.

RETAILERS

Last date for filing new maximum prices with appropriate War Price and Rationing Board: Jan. 10, for Cereals, breakfast, rice, sugar, cane and beet lard.

Feb. 10, for Vegetables, canned fruit, dried dry edible beans.

March 20, for Coffee, fish, canned oils, cooking and salad shortening, hydrogenated shortening, other corn meal. Canned citrus fruits and juices, evaporated and condensed milk, pure maple syrup and pure cane syrup, flour and flour mixes.

Retailers please clip and keep for future references?

Sugar Stamp No. 11

The weight value of No. 11 stamp for sugar is established at three (3) pounds. The valid period is from February 1, 1943.

the program, Scott said. There still are 79,282 farmers to be interviewed.

"When a farmer signs a 1943 farm plan, he merely states whether he plans to participate in the 1943 AAA program," Scott said. "Signing is purely voluntary on the part of the farmer and the plan is not a contract. After a farmer signs a farm plan, he is assisted in formulating a farm program for 1943 designed to earn maximum production practice credits for carrying out these practices most needed on his farm. This signing should not be confused with the signing of 1943 Farm Plan Work Sheets for Maximum War Production in which the farmer's war crop goals are set out."

Farmers taking part in the AAA program are allowed to obtain conservation materials, such as legume and cover crop seed, lime, and phosphate, for use on their land in lieu of farm payments.

In an effort to conserve transportation facilities, he said, most of the 1943 sign-up work is being carried on when farmers are at meetings or are in the county AAA offices for other reasons.

FORT SILL F. A. REPLACEMENT TRAINING CENTER—New trainees are taught the art of self defense. Often a club is the only weapon for a soldier and to prepare them for any emergency in their "Self-Help", they are taught to make the most of it. Quick footwork such as this may save a life. These 31st Battalion trainees at the Field Artillery Replacement Training Center have been in the Army only three weeks and already know how to handle themselves in the presence of the foe—when unarmed.

State College Hints For Farm Homemakers

By Ruth Current N. C. State College

Set up a kitchen office—maybe just a shelf. Include your favorite cook book, nutrition study material for daily review, scrap book of handy things for economy in housekeeping, a complete file of laundry and cleaning information.

Set up a food budget, list pur-

chases, and check prices.

Ask your neighbor about her canning plans. If you do not can on the same day, you may keep an eye on her children or prepare her one-dish meals—she may do the same for you.

Don't let your tongue run loose. A kind word in time saves the nine or ten you use patching things up. Sit down hard on the stories that come to your ears—they probably aren't true anyway.

Paraguay will limit the employment of non-Paraguayan nationals.

Winter Reduces Egg Production

Cold weather, the enemy of high egg production, has already made its presence felt in North Carolina poultry flocks, says C. F. Parrish, poultry Extension specialist of N. C. State College.

Yet much of the damage during the cold months can be avoided if the flocks are given a small amount of extra care—just enough to make them comfortable.

In going about this job, Parrish recommended that all openings and ventilators in the laying house be closed, except those on the south side. Should the front opening on the south reach across the house, a few feet at

each end should be closed up. This will help to make the house warmer and also to keep out blowing rain and snow.

Should the house have two or more rooms, a few feet on each side of the partition should be closed up, the State College poultryman suggested, so as to make each room more like a separate house.

Also, Parrish pointed out, the feeding of a mash moistened with warm milk or warm water at noon will keep egg production up to a higher level. In addition, the flock should have available at all times water with the chill taken off. If no warmers are used, the drinking water should be changed several times each day either with warm water or water fresh from the pump or well.

Many Now Can Qualify For Bicycle Purchases

Durham, N. C. — Any local child who needs a bicycle to get to and from school now can qualify for a certificate to acquire one of the vehicles, the local rationing board of Durham announced today. This order is effective throughout the United States.

In the Eastern area only, where gasoline rations have been reduced, anyone gainfully employed or doing volunteer work essential to the public welfare or to the war effort, can get a certificate of purchase for a bicycle, if need can be proved, it was stated.

According to board officials, people who heretofore could not qualify for bicycles because they owned cars, can now get certificates to obtain a bicycle if they can prove their needs.
