Dear Sir:
Charles R. Long 66, one of the familiar figures of Person County, who passed away in a Roxboro hospital on September 10, was injured in an accident when he was just a little boy, and went through life greatly handicapped with a deformed body—but he had a keen intellect, a remarkable memory, an unusual knowledge of music, and was blessed with a great fund of information. It was very inspiring to hear him perform on the guitar. Being able to give instructions in guitar music, he always played beautifully by note.

For a time he lived in the home of my father and mother, he and my mother being first cousins. After returning to his native county of Person, he visited us annually up until the last few years. His visits were always looked forward to with pleasure. He and my mother, who was Julia Anne Clayton, would sit for hours and talk very interestingly about the Longs, Claytons, Satterfields, Mundays, Cozarts, Dillihays, Slaughters, and others of their native county.

It will not seem the same now at our annual reunions since my mother and "Cousin Charlie" will not be there. My mother told cousin Sam Clayton, of Idaho, when they separated for the last time a short time before her translation—"when you get to heaven I'll be there." So when we get to heaven we shall expect "Cousin Charlie" and my mother to both be there.

Miss Marie Elizabeth Spencer And Lieut. James Hufnagel Say Vows

Mr. and Mrs. Richard Moffett Spencer, of Roxboro, are today announcing the marriage of their daughter, Miss Marie Elizabeth Spencer, of Roxboro and Richmond, Va., to Lieut. James Martin Hufnagel, United States Army, of Avon Park, Fla., and Clarion, Penn., on Thursday, September 16, at St. Peter's Parish House, Richmond, Va., by the Rev. J. B. Futig.

The vows were spoken at 8:30 o'clock in the evening in private rites in which the double-ring ceremony was used. The

bride, who chose for her nuptials a costume of aqua crepe, with black accessories and a corsage of orchids, is a graduate of Roxboro high school and of the School of Nursing of the Medical College of Virginia, in Richmond and since that time has been engaged in private duty nursing in that City. The bridegroom, a graduate of Notre Dame university, received his commission last year at Camp Lee, Va., and is now stationed at Avon Park, Fla. The bride will continue residence in Richmond.

United States Sacrifice Day

In Los Angeles — after he had given his blood— They found out he was a Marine furloughed back from war. "I thought I was dead — but plasma saved me," he said, "And I came in to pay back the blood I received." And what have you and I been through for the war? Worked a little harder? Given hours and effort? The pleats off our pants? Extra butter? Some driving? Tin cans, some sugar and junk— loaned some money? The slender artist—she lost her fiancée the day his wings In the RCAF were to be pinned on his breast. And then enroute from camp to that funeral Her younger brother crashed and died—only man in the family. And what have YOU suffered or sacrificed? Prompt laundry service, a juicy steak, can openers, A few lost leisure hours in some war work, Some frills on food and maybe some drinks. His dad was a big shot and he could have stayed home Holding down an office job— some sinecure— But he fought, for he wanted to play his full part. He's home now — having left both legs in a foreign desert. You aren't asked to lose your legs, Or be mortally wounded and then give blood, You aren't asked to puff out your life in a crash— You're asked to sacrifice some things around you So you can lend more money—not give it—lend it!

What You Buy With WAR BONDS

Stop Spending, and Save for the future. That has been good advice since biblical days. You cannot buy tires today, but you can start saving to buy that new set of tires when they go on the market again.

Your regular investment of ten percent or more of your earnings in War Bonds through your Payroll Savings Plan will provide the necessary funds to buy those tires later and help win the war now. Let's "Top that Ten Percent."

Put every dollar above the necessities of life into War Bonds. Payroll Savings is the best means of doing your best in helping your own and friends on the fighting front. Figure it out yourself.

TOBACCO OUTPUT MAY BE BOOSTED

AAA Reported Considering 20 Per Cent Acreage Increase Next Year.

WASHINGTON, Sept. 29. — The Agricultural Administration of the Department of Agriculture is considering the possibility in increasing allotments next year on the planting of all types of tobacco by 20 per cent, it was reported yesterday.

Officials in the department refused to comment on the report, but admitted that it was being given consideration and that there was a need for considerably more tobacco than was now being produced.

AAA officials have invited members of Congress from the tobacco belt to comment on the tentative proposal which would allow all tobacco farmers next year to increase their acreage of the weed by one-fifth.

Officials are pointing out that the domestic and foreign demands for tobacco are greater than the market now can supply and that because of this year's short crop the supply will become increasingly tight.

The bulk of the foreign demand for tobacco is by way of lend-lease which is disposing of vast quantities of leaf held by the Commodity Credit Corporation.

One AAA official said the goals committee had not yet made any final decisions regarding the proposed allotment increase, but that the matter would continue to have the attention of those officials in the weeks to come.

EXPECTS SON

Mrs. G. C. Vickers, of Roxboro, is expecting a visit from her son Bill Vickers, of the United States Army, this week.

Canada's Women Keep 'Em Flying

UNIFORMED women of Canada's Army, Navy, Air Force, are Jills of all trade, no job is too tough for these girls in service to release men for overseas duty.

The Battle Dress of Canadian women ranges from house dresses and business suits to overalls and service uniforms.

The number of women engaged directly or indirectly in war industries has increased from 95,000 in February, 1942, to 255,000. In the fiscal year ending March 31, 1944, war industries are expected to use 60,000 more women, and the armed forces an additional 24,000.

The youngest women's service organization to release men to more active duties, the Women's Royal Canadian Naval Service, had attested 3,104 officers and ratings, and called up 2,396 by June 26, 1943, one year after its establishment.

Officer members of the W.R.C.N.S. now will hold the same rank titles as men in the R.C.N., and will be referred to as commander, lieutenant and sub-lieutenant instead of the previous counterpart, chief officer, first officer, second officer and third officer. The Canadian Women's Army Corps was the first women's service to use the same titles as men.

Formed in September, 1941, the Canadian Women's Army Corps has enlisted more than 11,500.

The first women's service, established in July, 1941, the Royal Canadian Air Force (Women's Division) had enlisted more than 12,300 by the end of June.

Women in nursing services uniforms totalled more than 2,414 at the end of June, with more than 1,714 in the Royal Canadian Army Medical Corps, 276 in the R.C.A.F. nursing service and 169 in the Canadian Navy nursing service. There are also 255 Canadian nurses serving with the South Africa military nursing service.

There are 37 women doctors in the armed services, four in the navy, 21 with the army, and 12 with the air force.
