Firestone Store Officially Opened

New Store Has Many Articles That The Public Have Been Wanting For Long Time

The Garland Brothers, Albert and Stanley, opened their new Firestone Store last Friday, and it is one beautiful store. Many articles that the public have been looking for are available at the new store.

The windows are decorated in up-to-date minute style with fine displays of many articles that have not been available for some time.

The Garland Brothers have been known in this community for years and we know that they will make the new store a great success. The store is really an asset to a city the size of Black Mountain and it would be well for all of us to pay it a visit and look around before going elsewhere to buy something when it can be found at home.

The Garland Bros. invite you in to look over the new store and see for yourself the many new and useful articles that are now available for the people of this community.

The new Firestone Store now under construction on Montreat Road next door to the Dixie Store, will have recapping equipment, garage, service station. They will handle Standard Oil products. The new store is expected to be in operation by July 1.

The total area of the new property is 125 ft. front by 185 ft. depth. There will be a large parking lot for patrons in back of the store.
