A daughter born to Mr. and Mrs. E. C. Cole at Mission Hospital, Tuesday A.M. Everyone is doing fine.

Born to Mr. and Mrs. P. L. Farmer of Swannanoa, a daughter at Biltmore hospital.

Miss Ella Mae Inabinett, daughter of Mr. and Mrs. James A. Inabinett of Black Mountain, N. C., recently visited her relatives and friends here. She has now returned to Washington, D. C., to resume her position as card punch and varifier operator in the Insurance Dept. of Veterans Administration. Also one of the leading hostesses, of the Georgia Ave., U. S. O.

Mr. Haywood Pulley of Swannanoa, N. C., accompanied Miss Inabinett to Washington, D. C., where he is to resume further studies at Howard University.

New Press Installed At Jarrett & Warlick

A new press was installed about two weeks ago at the Jarrett and Warlick Cleaners. This press will enable them to give faster and better service.

This modern cleaning establishment is always looking forward to find the best in cleaning equipment and processes.

Amateur Night At Swannanoa

Big amateur night, Monday, August 12th, at 8:00 P.M. at the Swannanoa High school.

Featuring Read Wilson, of radio station WWNC as master of ceremonies.

Others featured on the program are: Joe Pressley, Champion old time fiddler, Fiddlin Bill Hensley, Smilin Red Raper, The Carolina Mountain Boys, Lloyd Bell, Marcus Martin, Bill McElreath, and many others.

Marcus Martin and Bill McElreath are from Swannanoa.

This program is sponsored by The American Legion.

Deformities Grow
Ninety per cent of all potential cripples would never become deformed if they received the right treatment at the right time. Most deformities are not due to a predisposing cause but to neglect of proper measures of prevention and cure.

Build Meal Around Cheese
You can build a whole meal around cheese or you can use it in small quantities for that extra touch on many dishes from soup to dessert. Remember that it is rich in protein, calcium and riboflavin of the vitamin B family.

Giant Bearings
The navy's mighty 16-inch battle-ship rifles obtain their ease of mobility from the giant ball and roller bearings on which the gun turrets are mounted. A single roller in one of these bearings, of which there are often a dozen or more, weighs 770 pounds.

Armstrong-Buckner Wedding

Mr. and Mrs. R. S. Armstrong of Swannanoa have announced the marriage of their daughter Margaret Ethel to John J. Buckner, son of Mrs. Jack Newis of New Haven, Conn., on Wednesday, July 31, at Bethel Methodist church.

The bride was given in marriage by her father. She wore a dress of white eyelet with white hat and ice blue veil, and carried a spray of pink rose buds on a white Bible.

A cousin, Miss Nan Allison, was maid of honor. She wore a dress of blue eyelet with white accessories and a corsage of red roses.

Edward Pierce was best man and Roy A. Armstrong, brother of the bride and D. L. Creasman, uncle of the bride were ushers.

The mother of the bride wore a rose sheer dress with a corsage of white roses.

The Rev. R. V. Masters, pastor of the Bethel church, performed the ceremony. The church was decorated with pink and white gladiolus and candles. Miss Patty Banner, pianist presented a program of music.

The bride is a graduate of Swannanoa high school and attended Western Carolina Teachers' College. Mr. Buckner was educated at Barnardville high school and received his discharge from the army in November. Mr. and Mrs. Buckner will reside at 172 South Liberty Street.

Cement Raised Pigs Show Excellent Gain

It is possible to raise pigs profitably on concrete according to findings of a Minnesota experiment. Pigs kept continually on concrete after they were 10 weeks old, and during 105 days of fattening, gained exactly as much as pigs fattened on pasture. Feed consumption was about the same, the pastured pigs eating more corn but less mineral and protein. Disease control was easier with concrete raised pigs.

A Long Cool Summer Drink

Iced-Coffee drinks are versatile and easy to prepare. Plain iced coffee, shown at left, is tops if you pour fresh hot coffee over the ice cubes. Brew it double-strength by using twice the usual amount of coffee or half the usual amount of water.

Also excellent is home-made coffee soda. Make a syrup by blending 1 1/2 cups cooled black coffee with 1/2 cup light corn syrup. Add 1/2 cup light cream. Mix well and pour into 4 tall glasses. Add coffee ice cream and fill with sparkling water.

Here also is a tested recipe for the coffee ice cream.

3 eggs, separated 1 envelope (1 cup double strength cold coffee 1/2 cup cold water: 1 cup light cream 1 cup light corn syrup 1/2 cup of sugar 1 tbsp. vanilla
Beat egg yolks until thick and lemon colored. Add coffee and cream. Cook over hot water, stirring constantly until mixture thickens and coats the spoon. Cool. Sprinkle gelatine on cold water. Combine corn syrup and sugar. Heat to boiling point. Remove from heat. Add gelatine. Stir until dissolved. Beat egg whites stiff. Add gelatine mixture gradually while beating. Add vanilla. Fold into cool custard. Freeze in refrigerator tray or freezer. If frozen in refrigerator tray, beat once during freezing to a thick mush. Beat smooth with egg beater. Return to tray and freeze until served. Serves eight.

Codling Moth May Be Controlled by DDT

Drawbacks Present in Application to Apples By W. J. DRYDEN

By far the most effective material tried against codling moth is DDT, according to Prof. S. W. Harman of Geneva experiment station. These findings were backed up as more effective than arsenate of lead.

Present drawback seems to be that in some cases rather severe infestation of red spider in the apple

Codling moth in apples.

orchards follow the application of DDT. When DN-111 is used to control red spider, damage to foliage results. New York found that the destruction of the natural enemies of the European red mite by the DDT spray, resulted in increased numbers of that pest. Further tests are under way and care is advocated in spraying for codling moth until more information is available. Where heavy spraying with lead arsenate has not controlled codling moth, growers are justified in adopting a DDT program.

Persian Bed
Many Persians sleep in a kurisee, a type of bed consisting of a table placed over a pan of burning charcoal and covered with a carpet. The sleeper lies beside the table or partially beneath it, under the edges of the carpet.
