Rev. Hardin Was Speaker At Junaluska

Address Made At Young Ministers And Chaplains Session

Lake Junaluska, N. C., Aug. 29-Rev. Grady Hardin, of Black Mountain, was among the speakers at the session of young ministers and chaplains conference.

The Rev. Mr. Hardin, after portraying the present international situation from the political viewpoint, called attention to signs of encouragement as evidenced by attempts of UN to get together. and outlined what he believed to be the function of the church in the international scene. He said who write the international charter up to hear the voice of God and He was in the navy hospital to know the way of life that will will of God. The function of the church is not to be an economist but to touch the economist that he may work out the will of God in Christian international relations. We need to reaffirm our faith that the way to overcome evil is with good. We need to keep in mind that international relations from the standpoint of the church are influenced by our domestic relations. The things we mestic relations. The things we do in America touch the entire Leader Addresses

Moore Hospital Decision Expected Soon From VA

WASHINGTON, Sept. 3 .- Final decision on prospective acquisition by the Veterans administration of the army's Moore General hospital, Swannanoa, is expected some time this week, the VA indicated today. It is understood the hospital question has been awaiting final approval by General Omar N. Bradley, veterans' administrator, who is now back in his office after several days absence from Washington.

Approval by Gen. Bradley would start the ball rolling toward formal acquisition of the army tubercular center, reportedly to be used as an adjunct to the veterans' hospital at Oteen.

On Tuseday, August 27

On Tuesday August 27, Mr. Charles E. Spencer gave an interesting and highly helpful talk on homes in many lands from earliest times to now.

He showed how the Indians lived, how the earliest settlers in America lived. The homes of Washington and of Lee were pictured and described, with a contrast of facilities for comfort in the home then and now. The audience then was reminded of how primitive even our modern American homes of thirty years ago were in the conveniences and services in the modern home with its method of heating, its water supthe sight-seeing tours arranged ply and plumbing, and the wonders of modern lighting and telephone and radio, that give comfort and contact with the world inside the home.
