# Moore Bros. Pure Oil Station

Black Mountain, N. C. - Phone 2401 BE SURE WITH PURE

February may be short on days, but it's certainly long on holidays ... what with national holidays and Valentine's Day, too, all calling for celebration this month! So here are some special dishes for these special days. (They're so easy to fix you'll probably want to serve them even if you're not having a party.)

#### HEAVENLY HEARTS

Your family will elect you their valentine when they taste this dessert PUDDING from the A&P! Cut

pastry (%" thick) with heart-shaped cookie cutter. Prick with fork and bake in very hot oven, 450°F., 8 to 10 minutes.

Prepare SPARKLE VANILLA PUDDING according to package directions; cool. Just before serve, put a layer of pudding and your favorite preserves between two hearts. Ummm!

#### CHEER-WORTHY CHERRY PIE

Washington's Birthday without cherry pie? No, indeed! And, to give it an extra festive touch, beore baking it I cut out with a harp knife two hatchet-shaped ssigns about three inches long in the top crust. Then, after it's laked and cool, I fill the hatchet designs with whipped cream. I make my light, flaky crust with

SUNNYFIELD FLOUR, which 1 get at the A&P. This bleached, enriched flour is grand in any recipe

requiring all-purpose flour. Try it! TEA FOR TWO ... OR TWENTY Tea goes well with any of the holiday treats I've described ... especially when it's flavor tested tea from A&P! Buy OUR OWN or NECTAR tea bags at your A&P, and let your guests make their tea as they like it. They're sure to like it a lot, for these teas are blended to give real enjoyment!

TREAT FOR THE TWENTY-SECOND It's easy as rolling off a log to make this Washington's Birthday salad. Cover straight pieces of ba-nana 4" long with ANN PAGE SALAD DRESS-ING from your

A&P, roll in chopped nuts, and insertacardboard hatchet in a slit in

each banana"log."
Pretty! And oh so tasty—thanks to the tart-sweet flavor of creamy-smooth ANN PAGE SALAD DRESSING!

### **Babies Sensitive** Mr. and Mrs. Carrol Jones of To Diet Change; Dr. Richardson

How time has brought about change in the methods used in feeding babies and in weaning them is described in detail by Dr. Frank Howard Richardson in an article "Well Baby Clinic" which appears in the February number of Hol-

are in their summer home on land's, the magazine of the South, Because babies are creatures of habit and sensitive to sudden changes, he usually did not like the abrupt manner in which he was taken off his mother's milk or a formula in a bottle and changed to solid food and milk from a cup. This was called weaning, and it was an experience painful to mother and baby alike, Dr. Richardson, who is a recognized authority in his field said.

"Today, the addition of various items to the baby's diet begins much earlier, and is increased gradually throughout the year," the Black Mountain physician points out. "The first of these is water which is offered the very first day, not in any prescribed quantity, but as much or as little as the baby will take when the bottle is given

# THE BEGINING OF AN ERA

It was in January of 1879 that Thomas Edison publicly demonstrated the first incandescent electric light. Eight years of tireless work-some six thousand experiments, and great sums of money had gone into the search for a suitable filament for this first bulb even after the basic principle had been established. With its success a new era was born. Civilization was started on its march into the New Electrical Age, which has brought miracles of better living to all mankind . . . and which promises a future of even greater benefit.
