G. C. Tabor of Old Fort route 1 recently secured the lime and fertilizer materials that he plans to apply to his meadow immediately following the first cutting this spring. Mr. Tabor states that the growth of the grass and clover is good and he will apply the fertilizer materials so the growth will continue to be good.

M. A. Hollifield of Fairview Church community has a fine growth of crimson clover in the field south of his home that he plans to turn as a green manure crop. Plowing under winter cover crops is a good erosion control practice according to Mr. Hollifield.
