Remind Motorists To Check Date On License Card

Driver License Examiner O. M. Alexander of Asheville today reminded motorists who obtained renewal of their driver's licenses in 1947 under the re-issuance program to check their cards for the expiration date.

"The expiration date will be found in the lower right hand corner of the motorists' present license cards," said Examiner Alexander. "Motorists will be permitted to seek renewal 30 days prior to the expiration date, which falls on their birthdate."

The majority of the motorists now up for renewals will have surnames beginning with A or B, but a few will fall in other alphabetical groups. Some of the motorists will not have their licenses exactly four years since the re-issuance program began July 1, 1947, however, in setting up the re-issuance schedule, it was necessary to place the expiration date on the birthday nearest July 1. Expiration date in 1955 for these motorists will fall on their birthdays four years from the 1951 renewal.

A space will be provided on the new license cards for blood type, which will be placed on the cards upon presentation of evidence of blood type. Inclusion of this information is entirely voluntary with the applicant.
