Minnie Walker is home for good, and this reporter has something warm to sleep with besides an electric blanket! Of course we are still looking for spring, and this isn't important, but Minnie being home is important to us. Minnie says that the Summers generation did some big weeping and wailing when she left.

We sure did enjoy Miss Isabel Wicker's piece in the last issue of the News about the razing of the old house on North Fork. We built, and spent the first six months of married life in this house. We even helped to saw what new lumber that was in it. There was lumber in it from the old barn of "President" Walker, then there was material in it from an old house that has been used for more purposes—a dwelling house, a convict stockade, a store, a meeting house, a club house, and a house of ill fame. The site where the house stood was used in our boyhood for an open air cannery, and for making molasses in autumn. In our dad's boyhood it was the location of a government distillery where dad and uncle Albert made brandies. It is indeed a place to arouse memories!

If a certain furniture and appliance company in Asheville doesn't quit doing business with Harry Morris, they are going

bankrupt. Harry recently traded his wood range for an electric one, and this "mean ole company" lacked ten dollars paying him as much as he paid for the wood stove on a "trade in," and Harry had only used it two and a half years. Later he traded his refrigerator for a larger one, and these people charged him a dollar per month for the time he used the old one. We believe that Harry is going to be a shrewd trader.

We are so sorry that Reed Hill is leaving Black Mountain. Besides doing business with Mr. Hill for years, one of the high lights of our life was singing tenor with him in cantatas.

Wilbur E. Simons of Cotton avenue has been promoted to the rank of sergeant. Mr. Simons is in the service of the U. S. Marines.

The tractor that Ben and Thomas Morris improvised from an old truck took a "running fit" the other day. It slipped out of gear on a steep hill, and went flying down and over a high bank. It never did turn over, but Ben said as it went over the bank the driver's seat went 20 feet in the air. If Ben had been on it it might have given him a taste for aeronautic gymnastics.

Mrs. Emory Penland is suffering from a bad case of rheumatism.

Mr. and Mrs. Charlie Morgan and their son, Alfred, visited Mrs. Roxana Walker last Sunday.

Cecil Morris has recently been employed by the Morgan Mfg. Co.

Miss Clara Propst and Miss Fay Williams spent last week end with Mr. and Mrs. Fred Strickland of Swannanoa.
