Thumb Nail Sketch
Arnold Powell of Grovemont

was peaceably reading the Sunday paper when he noticed that a school mate of his was married June 2. There's nothing unusual about that fact. The unusual thing about the announcement was that he married Myrna Loy, the motion picture actress. It was like this: Arnold was president of the senior class of New Bedford High school in 1928. Howland Sargeant was vice-president and valedictorian. In the 1928 annual of New Bedford High school it states that as president Arnold was the best liked and most prominent boy in his class. Also that he was popular with the opposite sex. The annual states that Howland was the most active valedictorian they had had in years. Needless to say, Arnold and Howland were very good friends. Then their paths separated. You all know about Arnold. Howland went to Dartmouth college and was graduated with honors. He was appointed a Rhodes Scholar. Today, Howland is deputy assistant secretary of state for public affairs. He plans to leave for Paris Thursday where he will be chairman of the U. S. delegation at a meeting of UNESCO. And so—he and Myrna Loy were married. Miss Loy is a member of the U. S. national commission for UNESCO. Both Howland and Miss Loy have been married and divorced. But back to Arnold — Kenneth Packard, brother-in-law of Howland, visited the Powells last fall at their home in Grovemont. Arnold is thinking of renewing his friendship with Howland, now that he has Hollywood connections.

Mrs. Roy M. Holbert had her son, Kyle Holbert and grandson Kile, Jr., of Knoxville, Tenn., as —Turn to Page 5, this Sec.

HAS LEADING PART

Miss Marylin Cook, daughter of Mr. and Mrs. A. T. Cook, played a leading role in the pageant, "From Out This Dream," given at Catawba college, Salisbury, last Saturday evening. This was given in celebration of the school's 100th year. Miss Cook has completed her freshman year at Catawba.

DANA WAS HONORED

He's grown—fast!

Pearl Harbor—1941. Korea—1951. Only ten years. But in that time the Bell System's capacity to serve the Nation has literally doubled!

And the Long Distance telephone network which ties America together has grown even more. In 1941, there was very little coaxial cable in use. Radio relay was still in an experimental stage. Yet today there are 8000 miles of coaxial cable in service—plus thousands of miles of radio relay. And Long Distance telephone circuits have increased in ten years from about 4,800,000 miles to 20,800,000.

In times like these, telephone lines are defense lines. For they are helping America rush its big production program. It's fortunate this nation-wide network has grown so big, so fast.
