NEW POWER FOR EASTERN CAROLINAS.—Aerial view of the first 100,000 horsepower unit of the Carolina Power & Light Company's Goldsboro steam electric generating plant, which was formally dedicated Friday, June 15. Senator Willis Smith, Rep. Graham Barden, and CP&L president Louis Sutton spoke at ceremonies beginning at 2:30 p. m. at the plant. Installation of a second 100,000 horsepower unit, with construction already underway, will double the size and capacity of the plant. The second generator is due to be in production in mid-1952.

Reflections

By Jack Greenwood

It happened during the Civil War. Peaching one Sunday morning to an outfit from Manhattan, the chaplain casually mentioned at the Sunday before 12 soldiers of a Brooklyn regiment had come forward and professed their intentions of living a better life in the future than they had in the past.

Immediately the colonel of the Manhattan group leaped to his feet, interrupted the startled chaplain, and shouted: "Sergeant, detail 20 men to be baptised as soon as this service is over. Let me never be said that Brooklyn can eat us at anything."

Wonder why John J. O'Connor doesn't cut his lawn. I don't mean at his home. But the grass and weeds are having a field day growing between the sidewalk and the building on Sutton avenue. John Brandon says that John would have made money if he had planted a garden there instead of letting the weeds take over.

The honeymooners are in the news this week. Mr. and Mrs. Bob Sawyer, celebrating their 20th wedding anniversary, took their annual trip through the Smokies to see the bears and pick rhododendron. It was different from their first, way back in 1931, when they left town with cans

GET WELL SOON!

No better way to express that sentiment than with fragrant, fresh-cut flowers or a pretty potted plant. Send beauty to someone who's ill . . . let us deliver flowers today.

But it was honeymoon No. 1 for Mr. and Mrs. Bill Graham of Florence, S. C. Former sports editor of the Florence Morning News and now associated with the Southern Railway, Bill and his bride, the former Mary Elizabeth Lindsey, were married a few days ago and are spending their honeymoon at Blue Ridge. Mrs. Graham was a member of the staff last year at Blue Ridge. Both are sold on the mountains of Western North Carolina.

Dr. Arthur Bannerman told this story on Fred Davidson of Swannanoa at the Men's Club meetin last week.

It seems that Mr. Davidson found his way one day to a Democratic rally and had the time of his life. The master of ceremonies called attention to his presence, assured him that he was welcome, and ended by asking that he give the closing prayer.

But to this request Mr. Davidson just shook his head. Pressed for his reason in refusing he explained: "You know I can't do that because I don't want the Lord to know I'm here."

"Typical" Man Doesn't Think He Is "Typical"

Do you have 1.6 children or own .8 of an automobile?

Probably not many can qualify as to the foregoing, but anyway, that's the status in which the typical American family finds itself.

And, according to the current issue of the American magazine, most "typical" Americans don't consider themselves as such. That's why the magazine sent Roul Tunley, one of its top writers, to Terre Haute, Ind., city nearest the center of population, recently to find the typical American family.

Bob Simmons, 34, production planner for the Quaker Maid company, subsidiary of the Great Atlantic & Pacific Tea company, his attractive wife, Margaret, and their two sons, Steve and Phillip, were selected as the most typical of American families.

"Mine is not the typical American Family", was Simmons' first reaction to having the label pinned on him.

That was what Tunley was looking for, because he says: "The most typical thing about an American is that he doesn't

consider himself "typical anything".

Simmons' job pays him \$4,000 a year and he is charged with planning the amount of spaghetti, or mayonnaise, or peanut butter, that will be produced in the A&P factory the next day or the next week. He lives in a \$10,500, yellow-brick, two-story home which was purchased a year ago with the help of a GI loan. The payments are \$65 per month.

All-in-all, he fits statistics compiled by statisticians pretty well (the latter say the average American family has 1.6 children). But Simmons, like other Americans, doesn't want to be chopped into any statistical slot. The article tells how he lives, works and plays.

Typically, too, Bob Simmons' wife provided the answer to the typical question about success.

"Funny," she said, "but success is something you work for and you don't always know when you have it. Take us, for example. In lots of ways we have it right now. Nothing very great ever happens to us and nothing very bad. And I don't want it to. I find lots to gripe about, of course, but it doesn't really amount to a hill of beans."

WEEK END IN GREENSBORO

Mr. and Mrs. Herman Talley and children, Tim and Terry, spent the week end in Greensboro with Mr. Talley's parents, Mr. and Mrs. E. P. Talley.
