Look What Cropped Up in Dixie Last Year!

More than 69,000 Rural Telephones

Last year we added more than 69,000 rural telephones. There are now over a half million telephones in rural Dixie served by Southern Bell. This year approximately 73,000 more will be added.

These new telephones are bringing increased efficiency of operation for Southern farmers, and closer contacts and better living for farm families Expanding and improving rural service is a big

and costly job. But we're working hard at it because we know how important the telephone is to the South's overall prosperity.

SOUTHERN BELL TELEPHONE AND TELEGRAPH COMPANY
