## Need \$1000 **For School** unch Fund

Do you believe that a sche child who is not receiving an adequate lunch can study? Do you think that a child who goes all day without food likes school or is anxious to go to school every day? What will you do to solve the problem of these children? These are the questions that the Ways and Means committee of the Black Mountain Elementary school P.T.A. will bring to the attention of clubs, civic and church organizations and individuals of Black Mountain and Broad River. A letter is being mailed this week stating the situation fully, and asking for funds to meet the \$1000 free lunch budget for the needy children of

the school. Before the adoption of this \$1000 budget for free lunches, the P.T.A. had, through its committees, found that in other years lunches for these children had been furnished through many sources. Teachers had been using their own money. Some clubs and individuals had furnished teachers with extra money. At Ridgecrest last year parents and grade mothers packed some lunches for needy children there, but there was no organized plan. P.T.A. spent last year \$317.70 for

free lunches. P.T.A. committee chairman, and disbursed by them, so that they may have an accurate and true picture of the need to be faced

year after year. Teachers, who observe the children all day, have been asked to make an application for any child in their room who, in their judgment, will such force that he went one way, benefit by either lurab or free milk.

Every application is, after being presented, investizated carefully by the lunch room committee. Mrs. Stanley Garland, chairman, is assisted by Mrs. F. P. Higginbotham, Mrs. Charles Carpenter, and Mr. teen, sent in with instructions to push is over, did just that in the times they find unemployment, illness, as many children at home

of several or all of these conditions. Whenever the committee finds a case, where through circumstances beyond the control of the child, he is not receiving or bringing adequate lunch to school, swung to his right just enough the policy will be to place that to draw the defense over, then child on the free lunch fund. went wide to his left, found the The lunch room committee and sideline and raced 80 yards unthe executive board of the P.T.A. touched for the final TD of the have adopted this policy that a school child shall not be allowed to suffer hunger because of con--Turn to Page 4 & C.
