

Warriors Lose To Comets, 7-0

A touchdown in the second quarter gave the Sand Hill Comets a 7-0 victory over the Swannanoa Warriors in a Buncombe County conference game at Canton Friday night.

Except for the scoring drive which carried 35 yards, the game was fought on even terms with the play of the lines outstanding.

In the first few minutes of the game the Warriors threatened when Gravette dropped back and hit Orren Bell with a pass which was good for 63 yards and placed the ball on the 23. But the hard charging Sand Hill forward wall could not be moved and the drive stalled at that point. Three other marches were stopped inside the Sand Hill 30.

Swannanoa completed two passes good for 81 yards and returned punts 63 yards to 15 for the Comets.

The Lineup:
Swannanoa (0)—E. Jones, Ballard, Mills, T. McMahan, McCraw, Davis, G. Creasman, Burleson, Shope, C. Campfield, Fox, Backs, Gravette, Bell, Suttles, Green, Shook, Rogers.

BEE TREE NEWS

By Mrs. C. M. Howie.

Well we have had quite a bit of frosty mornings of late. Friday we had a big white frost but it hasn't hurt anything so far.

Mr. and Mrs. Memford Kilby and children of Bull Creek visited their parents, the H. G. Morgans and J. S. Kibby's Sunday afternoon.

Mr. and Mrs. Thomas of Long branch had as their guests last week Mrs. Thomas' sister, her husband, and their children.

Mr. Hensley of Longs Branch road has had a very sick baby for the past two weeks. It became seriously sick Friday and was rushed to the hospital. It has double pneumonia.

A few Halloween pranksters visited the C. M. Howies Saturday evening. The Howies gave them a treat of pop corn and they went on their way.

Carl Thomases of Longs Branch have all been very sick with colds the past week.

C. M. Howie has also had a cold and wasn't able to attend church Sunday.

Mr. and Mrs. Charles Bryant and children visited Mr. Bryant's mother, Mrs. Thomas G. Hall, Sunday afternoon at her home.

Mrs. Gertrude Howie visited Mrs. Plonnie Howie and mother, Mrs. W. C. Burnett, Friday.

The C. M. Howies little dog Tommie, tread a big o'possum Monday night. C. M. Howie went to him. He, Loyn, Buddie, and Herman Morgan shot it out and it sure was a large one. They gave it to Uncle Horace Morgan who said it was sure a fat one.

Tommie sure is a smart little doggie. He catches moles, trees squirrels, runs rabbits and kills every snake he comes in contact with. All the children in the community love to play with him.

Aunt Cora Morgan has been doing some quilting the past week. It makes one think of the days of long ago to see one quilt, for there are not many people who quilt now as in the days of old.

Mrs. Rodman Sawyers and children visited Rodman's father Saturday at his home on Bee Tree. Rodman is stationed at Bainbridge, Md.

CORN BREAD DRESSING ADDS NEW FLAVOR TO PORK ROAST

Roast pork is another of the many foods that take on added zest when combined with flavored corn meal.

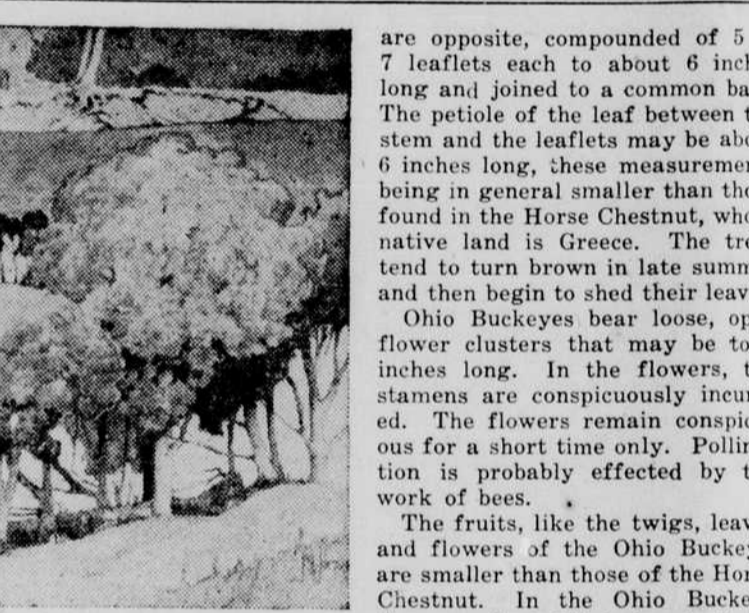

A delightful main dish for a Sunday or holiday dinner is Roast Pork with Corn Bread Dressing. Easy to prepare, the dressing can be made from either left-over corn bread or fresh corn bread dried slightly in the oven.

ROAST PORK WITH CORN BREAD DRESSING

1 Pork Roast (loin or rib)
Season with 1 teaspoon salt
1/2 teaspoon pepper per pound
Dressing
1/2 cup chopped onion
1/2 cup bacon fat
4 cups crumbled corn bread
1 teaspoon salt
1/2 teaspoon poultry seasoning
1/2 teaspoon pepper
Ask butcher to loosen backbone to make carving roast easier. Place meat on trivet in open roasting pan, fat side up. Roast in moderate oven, 350° F., about 30 minutes per pound. While meat is roasting, prepare dressing as follows:

CORN BREAD RECIPE

3/4 cup sifted self-rising flour
1 1/2 cups self-rising corn meal
2 eggs, well beaten
1 cup sweet milk (room temperature)
2 tablespoons melted butter (If plain corn meal and flour are used, add 3 teaspoons baking powder and 1 teaspoon salt.)
Sift the flour. Add corn meal and mix well. Combine beaten eggs, milk and butter, and add dry ingredients all at once. Stir only enough to moisten the dry ingredients. Pour into greased 8-inch square pan and bake in moderately hot oven, 400° F., 20 to 25 minutes.

OHIO BUCKEYE

Here is the unofficial tree of the Buckeye state, Ohio. This does not mean that Ohio Buckeyes are found only in Ohio. On the contrary they range naturally from southern Pennsylvania to northern Alabama and west to Iowa, Nebraska and Missouri. They have been and are being planted successfully as ornamentals and as shade trees over wider areas of the earth.

The Ohio Buckeye is a tree that reaches a height of 70 feet. It may have a trunk diameter of 2 feet. The twigs are coarse but not so coarse as those of the Horse Chestnut to which the tree is closely related. The winter buds of Ohio Buckeye are not sticky as are those of the Horse Chestnut. The leaves

are opposite, compounded of 5 to 7 leaflets each to about 6 inches long and joined to a common base. The petiole of the leaf between the stem and the leaflets may be about 6 inches long, these measurements being in general smaller than those found in the Horse Chestnut, whose native land is Greece. The trees tend to turn brown in late summer and then begin to shed their leaves.

Ohio Buckeyes bear loose, open flower clusters that may be to 6 inches long. In the flowers, the stamens are conspicuously incurved for a short time only. Pollination is probably effected by the work of bees.

The fruits, like the twigs, leaves and flowers of the Ohio Buckeye, are smaller than those of the Horse Chestnut. In the Ohio Buckeye they are about 1 1/2 inches in diameter, and instead of having persistently prickly surfaces, are prickly only when young. The seeds within the fruit are large and brown resembling small Horse Chestnuts.

While the most important use of Ohio Buckeye is as an ornamental tree, some use is made of the wood. The wood is white at first, weak, coarse-grained and soft. It decays easily unless kept exceptionally dry. The sawwood to the depth of approximately 10 annual layers of wood is dark.

The wood when dry weighs about 28 pounds to the cubic foot as contrasted with White Oak that weighs about 46 pounds to the cubic foot or Cottonwood that weighs about 24 pounds per cubic foot. It is about equal in weight to that

The Inghams plan to find work here and make this their home.

of Black Willow or Balsam Fir or Norway Spruce. It lacks most of the desirable characters that make some of the spruces of equal weight valuable.

Like most trees the Ohio Buckeye tends to winterkill in the northern areas of its normal range. When planted north of this range winterkilling may result in making a deformed and unsightly tree. This of course reduces popularity. However, where the climatic and soil conditions are right the tree may develop into a beautiful ornamental. As such it deserves the care and attention it gets though I personally am glad that the member of the genus that grew near my boyhood home was the larger-seeded Horse Chestnut.
