Veterans Administration received nearly 42,000 home loan applications for guaranty during May, an increase of 23 percent over April and a 73 percent increase over May, 1953, VA announced.

VA said that the spurt in appraisal activity since last February is just beginning to be felt in the rate of home loan applications.

Home loan applications for guaranty are submitted to VA by lenders on behalf of veterans. The volume of appraisal requests to VA continued to spiral in May for the fourth straight month. During the month, VA received appraisal requests for \$9,134 dwelling units, of which 52,245 were for proposed dwelling units and 36,889 were for existing homes. The total was 22 percent above the volume in April and 90 percent higher than the number of appraisal requests in May, 1953.

VA also reported that the terms on which lenders will grant loans to veterans are easing. A survey of VA guaranteed loans closed in May, 1954 shows that nearly 25 percent of all GI home loans were made without a down payment.

The same survey disclosed that 61 percent of the loans were written with 25 to 30 year terms.

Q—I'm planning to take an evening course under the Korean GI Bill. Since I'll be attending less than half time, the VA told me I will receive an allowance equal to the school's established charge which non-veterans are required to pay. Will this established charge include money for books and supplies?

A—Books and supply charges will be included only if all students—veterans and non-veterans—are required to pay for them as part of the school's established charge. If not, your allowance will cover only tuition and fees.

Q—I started Korea GI Bill training this past fall. Because of summer vacation, it won't be possible for me to be in training on the August 20 deadline date. Does that mean I won't be permitted to go ahead with my studies later?

A—No. So long as you began training before the cut-off date, it won't be necessary for you to be enrolled in school August 20. You will be permitted to continue with your studies at a later date, after the cut-off date.

Q—I'm taking on-the-job training under the Korean GI Bill. In addition, I would like to take a correspondence course in the same field. Could I receive a GI allowance for the correspondence course, as well as my monthly allowance as an on-the-job trainee?

A—No. The GI allowance for a correspondence course could not be paid, so long as you're receiving an allowance for on-the-job training.

Q—I was awarded a disability rating by VA, and I think it should be higher. I want to appeal. Is there any time limit on filing my appeal?

A—Yes. Your appeal must be filed within one year from the date VA made its original award.
