**New Gulf No-Nox Gasoline** delivers not just the highest octane but full working octane because it's super-refined to burn clean

There's no need to worry about stalling in hot-weather traffic; no need to worry about balky hot-engine starting! Just fill up at your Gulf station with New Super-Refined Gulf NO-NOX—the gasoline that's made with evaporation control to prevent vapor-lock. And always protect your engine with New Gulfpride H.D. Select, the motor oil that controls carbon.

**DIRTY-BURNING TAIL-END** vs **NEW GULF NO-NOX**

See what a difference Gulf super-refining makes. Gulf takes out the "dirty-burning tail-end" of gasoline—at the refinery—to bring you new clean-burning Gulf NO-NOX.

**full working octane because it's super-refined to burn clean**

**NO** GASOLINE, no matter how high the octane, will let your engine deliver full power performance—mile after mile—unless it burns clean. That's why it pays to always use new NO-NOX. Gulf NO-NOX is the clean-burning fuel that gives you full working octane day in, day out. In addition, you get...

- more complete engine protection
- extra gas mileage in short-trip, stop-and-go driving
- freedom from vapor lock, engine stumbling and stalling
- no knock, no pre-ignition—even in today's high-compression engines

Now! For the ultimate in working octane performance, always use Gulf's super-refined gas oil team... New Gulf NoNox Gasoline and New Gulfpride H.D. Select Motor Oil

The only motor oil super-refined by the Alchior Process for modern high-compression engines.

- Assures lower oil consumption
- Provides the toughest protective film ever developed in a motor oil
- Controls carbon
- Combats corrosive acids, rust and deposits

Available in 3 grades—SAB 10W, SAE 20/20W, SAE 30
