Chit-Chat.

Don't forget the school lunch fund which furnished children with good hot lunches, they would otherwise have to fore-go. Are you trying to help us hunt a scoutmaster? We need one desperately if our sons are to have the valuable training scouting alone offers.

A prominent business man in our town suggested that we write an article concerning our superior volunteer fire department, which he felt was not receiving enough credit for its good works. One is coming up.

Claude Thompson is changing Old Fort's skyline with his work on the new subdivision. Have you driven around the new road? You'll be surprised at how many nice building sites there are on it.

Would you like to see the "Old Fort News Letter" improve in quantity and quality? If so, how about dropping me a card, or calling my number, 291, and telling me what is going on in various parts of Old Fort. Church news is especially welcome. In a small town like this, we are all interested in the activities of others, no matter how trivial they seem to the ones concerned.

Please give me a little help—I'll write it, if you'll tell me about it. Thanks.

Helen Shifflet from Lees-McRae college was home for the week-end at her parents' residence. She is the daughter of Mr. and Mrs. "Ab" Shifflet.

GARDEN TALKS FROM ART'S GARDEN

Blooming soon after the witch-hazel, with white blooms somewhat resembling them, is a large growing shrub called "Sweet Breath of Spring", with a proper name of fragrantissima, which describes it very well, for its perfume will be wafted far and wide.

A Florida Jasmine is right at home if it can go trailing over a wall or even just a pile of rocks. Its dime size yellow blooms have that delightful perfume that is strictly its own and without equal.

Lately there has been introduced some new "Japanica", or do you call it by its proper name, Cydonia? These are a brighter red with more bloom per plant than the old time varieties.

A cascading mass of yellow bloom in your yard is the reward of all who have a "Golden-Bell". It is a fast growing, low priced shrub. Just recently there have been introduced two new ones that are well worth while. One is named Lynwood Gold, and the other one Spring Glory.

A Mahonia is not so showy in bloom, for its yellow flowers are small, but it has leaves that look as if they had just been freshly varnished. Best of all, it is a satisfactory shrub in the shade.

The French Hybridizer, Lemoine, has given us a wonderful new member of the Mock Orange family. One is double, others have large wavy single flowers that are really fragrant. Their names: Virginalis, the double one; Atlas, with the largest flowers, and Enchantment, sweetly fragrant.

The common Snowball of Grandma's garden has now been outclassed by a new one, with panicles of wavy white flowers that turn to shades of pink and buff as they age, and are delightfully fragrant. It's name is Carlessi. It makes a perfectly rounded bush, blooming in sun or shade.
