Everyone likes a person who speaks to you when he sees you. You have probably many times spoken to a person and not gotten a reply. This person may be deeply engrossed in thought and not even hear or see you and then in other cases may be just sulky.

Many times a person may speak but have a hateful attitude about him. That can certainly frustrate you. Probably you will say this person is stuck up and mean, but it may be opposite to what you think. This person may have an inferiority complex or in other words thinks he's not as good as you are. A good word would be kind to him and help him feel right.

Good manners are very important in order to be popular. A person who doesn't have good table manners isn't respectable. Also if a person doesn't speak respectfully to elders he wears the reputation of not being well-trained.

A clean and neat person is always admired. To have clean shining hair and clean clothes makes one admired.

Habits That Make a Good Citizen.

One of the many points that makes a good citizen is dependability.

Dependability in a person means that they are dependable in their work in the community affairs and at play. When someone depends upon you, it means that they put their trust in you.

One day Jack's mother gave him a dollar to go to the store and buy some meat. He was gone a long while and when he came back he did not have the meat. He had treated his friends to some candy and spent his mother's dollar on foolishness instead of what she sent him after. From then on Jack's mother could not depend upon him for what she needed from the store.

Be sure when your mother depends upon you for what she needs, do not spend the money for foolishness.

—By Brenda Lindsey.

Habits That Make Good Citizens.

Some people are badly mistaken about citizenship. They think that to be a good citizen you have to have high social standards. This is not true especially in the case of children.

Cleanliness, honesty, manners and health are points that make good citizens.

Cleanliness in thought as well as the outward appearance is important. Someone who has unclean thought will certainly not make a good citizen. Also one who is always clean and fresh is a very pleasant person.

Honesty is always important. Have you ever been tempted to copy someone else's paper? I have. You may get by with it for awhile, but when it catches up with you, it can be very embarrassing believe you me!

Ever heard of manners? No it's not an ancient Greek God. It's something that we all need more of. If we all had more manners it would certainly be a more cheerful place. Manners are especially important when addressing an adult.

Health is one of the most important points. A person who is healthy is a person who is cheerful. When good health habits are followed, there is less danger of disease. Altogether, a healthy community is a pleasant community. All these points, if used correctly, make good citizens.

Juvenile Delinquents.

Many people think that almost all teen-agers are juvenile delinquents.

"No!" They have entirely the wrong idea. Although many teenagers have done wrong, all have not.

I am a very strong believer in giving credit where credit is due. If more people would give the other teen-agers a little credit for not being juvenile delinquents maybe the others would do better in order to receive the praise.

Our Playground.

There isn't a pupil in our school who doesn't like to play on the playground. We also like to play on a clean playground. What can we do to keep our playground clean? We can keep it clean by keeping papers and sticks off it. We can also keep Kleenex off it because they spread germs. When we use them, let's put them in the trash can so that they won't spread germs.

We also have some people who like to have fun by sliding on the banks. That ruins the looks of the playground. It also kills the grass and gets muddy.
