SPEAKING OF HOMEMAKING
BY MRS. ELIZABETH G. PARHAM
Home Service Representative of Carolina Power & Light Company

YOUR HOME IS ONLY AS MODERN AS ITS WIRING

You can enjoy the benefits and conveniences of modern living to the fullest extent only when your home has modern wiring. Whether you build, buy or modernize, be sure that you get sufficient

1. Circuits.
- a. General Purpose—for all lighting and for convenience outlets except in kitchen, laundry, dining areas. The average 1000 sq. ft. home needs three, with recommended No. 12 wire for 2300 watts each circuit.
- b. Small Appliance—for convenience outlets in kitchen, laundry and dining areas. Average home needs minimum of two. No. 12 is smallest sized wire safely used; 2300 watts each.
- c. Individual—for each of the major appliances.

Remember that voltage drops when circuits are too small, too long, or overloaded. You waste electricity as lighting can be reduced as much as one-third; you waste electricity and time on heating appliances or those producing heat; and there is danger of overworking and eventually burning out motors.

2. Outlets.
- a. Lighting—on switch control, for either a ceiling fixture or wall element in each room or area.
- b. Convenience—in living areas along floor line of unbroken wall space, placed so that no point is more than 6 ft. from an outlet; one in any unbroken wall space 3 ft. or more; one for each 4 ft. of kitchen work counter, plus refrigerator; one at each of the other working areas, and weatherproof type for outdoor use.
- c. Special—for each major appliance.

OWEN HIGH MENU

Monday, April 23—Ham, candied sweet potatoes, sliced tomatoes, lettuce, mayonnaise, hot biscuits, jelly.

Tuesday, April 24—Pinto beans, steamed cabbage, corn bread, beets, ginger bread with lemon sauce.

Wednesday, April 25—Hamburger steak, gravy, mashed potatoes, rolls, pickles, fruit cup.

Thursday, April 26—Pork luncheon meat, black-eye peas, slaw

2 packages yeast
3 1/2 to 4 cups sifted flour
Add sugar, salt and shortening to scalded milk. Pour milk and boiling water over rolled oats; combine well. Let stand until lukewarm. Dissolve yeast in lukewarm water, add to oats mixture; beat well and stir in flour. (Mixture will be rough in appearance).

Turn out on floured board and knead for five minutes, using more flour if necessary. Dough should be smooth and easy to handle. Grease top of dough and cover. Let rise in warm place until double in bulk, about 45 minutes. Punch dough down and divide in half. Cover, and let dough rest for ten minutes. Form into two loaves and place in well-greased bread pans (1-pound size). Grease top of each loaf. Let rise until nearly double in bulk. Bake at 375 degrees F. for about 40 minutes. Remove at once from pans and place on wire rack to cool.
