THE NEW SURVIVOR BENEFITS ACT DOES NOT CHANGE THE RIGHT TO CONVERT GI TERM INSURANCE POLICIES WHICH HAVE BEEN CONVERTIBLE UNDER PREVIOUS LAWS

Three of every five widows of veterans who died of service-connected causes before January 1, 1957, have failed to apply for the new increased dependents' compensation payments, Veterans Administration announced.

Widows of veterans who died of service-connected causes before January 1, 1957 may elect to receive the new payments or to continue under the old death compensation, whichever is higher.

In most cases, VA said, the new act provides for higher payment to these widows than were granted under previous laws.

Any of these widows who wish to receive the higher benefit must apply for the new compensation payments, even though they already are on VA rolls.

Application cards have been sent to 114,000 of these widows who may be eligible for increased payment, VA added.

If a widow is eligible for an increased monthly payment under the new law, VA said, such payments will be made retroactive to January 1, 1957, provided she applies by July 1, 1957.

With certain exceptions, applications received after July 1 will be effective as of the day they are received, VA emphasized. The benefit will be paid at the monthly rate of \$112 plus 12 percent of the basic monthly pay now being received by a serviceman whose rank and years of service are the same as those of the deceased veteran, VA pointed out.

Q—I have been drawing monthly compensation payments from VA, based on the service-connected death of my husband, a World War I veteran. If I get a job to supplement my income, will my compensation payments be stopped?
A—No. Death compensation payments, based on the service-connected death of a veteran, are not affected by your income. The income "ceilings" apply only to death pensions for the non-service-connected death of a veteran.

W. C. Birthday Luncheon Held At Sunnyside Inn

The 36th birthday celebration of the Woman's club was held at Sunnyside Inn, Asheville, on May 4 with about fifty present, members, ex-members and guests.

At each place was a spray of apple blossoms, the club flower, and a program favor in the form of a gayer garden hat made by Mrs. Wilkerson. Between courses there was general singing of suitably "dated" songs led by Mrs. Mary Jackson of Ridgecrest with Mrs. Pearl Perkins at the piano. Later Mrs. Jackson delightfully sang two solos, "Without a Song" by Vincent Youmans and "American Lullaby" by Gladys Rice. After luncheon there was an informal program, with Mrs. H. D. Daugherty acting as M. C. Mrs. Davis read a "Who's Who?" questionnaire, the answers being given by the first one guessing which member was meant. Mrs. Madelon Parks asked "Do You Know?" bringing up high spots in the early life of the club and of Black Mountain.

The last feature was a most amusing skit, a take-off of a woman's bridge party, presented by the husbands of four of the members: B. G. Byron, Walter A. Davis, William Styles, and Roy Taylor.

The meeting ended with the reciting of the Club Collect and the singing of "Auld Lang Syne."
Members of the planning committee were Mrs. W. K. Weeks, Mrs. John Benedict, Mrs. S. M. Bittinger, Mrs. N. L. Perkins, Mrs. W. I. Willis, Mrs. Roy Taylor, and Mrs. W. H. McMurray.

Southern Bell Telephone Co. added 462,000 telephones in its nine-state area last year for a total of 5,358,000.

Southern Places New Car Order

Southern Railway System has placed orders for 2,650 new freight cars to cost an estimated \$27½ million, it was announced today by Harry A. DeButts, president. He said the additional cars are needed "to keep pace with the increasing transportation demands created by the continuing rapid industrialization of the South."

"With receipt of these cars, 50 per cent of Southern System's entire freight car fleet of 57,600 units will be new cars put in service since 1945 at a total cost of about \$170 million," Mr. DeButts said. The railway now has received about half of the 2,000 fifty-ton box cars and nearly all of the 500 seventy-ton hopper cars ordered in December, 1955, and costing approximately \$24 million.
