### KEEP UP THE GOOD WORK!

AGAIN AND AGAIN, industrial newcomers to the Southland tell us how pleased they are with their first manufacturing plant in the South. There are many reasons for this. But right up on top of the list is the fact that they've found the men and women in industry here to be willing, dependable workers-easily trained and eager to give a full day's work for a fair day's pay.

PHONE NO 9-4121

In times of lessened business activity everywhere, this willingness to work is more important than ever before, both for Southland industry and for its workers. It helps management keep production cost per unit down, so that the finished product can be priced to sell in today's highly competitive markets. And this, in turn, makes jobs for workers.

A good supply of good workers has always been one of the Southland's greatest drawing cards. It brings new, job-providing manufacturing plants to the South – and keeps them busy after they get here. Now in particular it benefits everyone in the Southland to "keep up the good work" and keep it that way!

### WE WANT YOUR FREIGHT IN '58!

To shippers and receivers of freight, the railroad that "Serves the South" offers the largest, most efficient, most modern plant and equipment in its 127-year history. As never before, we are eager to serve and geared to GO. Let our low-rate, all-weather volume transportation service help you do a better job for your shipping dollar.
