What kind of Arithmetic is this?

Doesn't exactly make sense, we'll have to admit. But neither do some of the present tax laws.

For instance, a strange twist in federal law lets several million American people and businesses escape paying all the taxes in their electric bills that you pay in yours. More than 23¢ out of every dollar you pay for electricity goes for taxes—but members of this "privileged class" pay only a small fraction of that. The reason: They get their electricity from federal government electric systems that you help support.

Most Americans think everyone should pay his fair share of taxes. How do you feel about it?

Mattison Aids Mineral Display for Eastern States

Volunteers, among them Boyd S. Mattison, son of Mr. and Mrs. Gorman E. Mattison of Black Mountain, were active as hosts and arrangers of exhibition materials for last week's three-day convention and exhibit of the Eastern Federation of Mineral Societies at the Asheville Municipal auditorium.

With the formal sessions of the show having been concluded on Saturday, members of the arrangements committee were busy over the week-end and early this week dismantling the show and also leading in field trips to various mineral deposit locales in Western North Carolina. Mr. Mattison was active on this committee and has spent the past several weeks at his parents' home while aiding in making advance preparations for the show which was attended by several thousand mineral collectors and specialists from Maine to the Canal Zone. The Southern Appalachian Mineral society, of which he is a member, was host for the program.

Exhibits were insured for more than \$1,000,000. The Federation is made up of 33 rock, mineral and lapidary groups east of the Mississippi.

Mr. Mattison has attended the University of North Carolina, majoring in geology. He was graduated from Charlotte college, and from Summit school, Winston-Salem. His wife, and daughters, Susan and Kim, visited at the Mattison home here last week.
