Telephone Talk

by DON SPRINKLE Your Telephone Manager

BOUQUET: Hope you folks got to see some of the recent Bell System Science Series TV programs. They were "Our Mr. Sun," "Hemo the Magnificent," and "The Strange Case of the Cosmic Rays". You'll be interested to know they've recently received the Thomas A. Edison Foundation award as the best science television program for youth in 1957. We are happy we can announce that other fine science films are in the making for the future enjoyment of you and your children. Watch for the program times to be announced later.

TRYING A NEW RECI-PE? "Bring to a boil, stir constantly ..." That's where you are when the phone rings. Ordinarily you'd be in a complete tizzy, but not now-not since you got that wonderful kitchen wall phone. It's so easy to keep right on stirring while you chat with a neighbor ... attend to

some errands . . . or answer any one of the countless calls that come to a busy housewife all day long. And aren't you glad you decided on the special model built for busy kitchens! Saves you so many steps ... makes you realize how wonderful it is to have convenient extension phones all through the house—an extra phone in the bath, for instance. If you're not one of these lucky ladies living in telephone luxury, just call our business office. You'll have low-cost extension phones in a jiffy!

HOW MANY PHONES would you guess there are in Dixie? One million? Three million? Five million? The last figure would have been a good guess 28 months ago. But recently in North Carolina Southern Bell installed the SIX MILLIONTH PHONE! This is significant because every new telephone means expanded service. This means more of us than ever before can make calls or be called . . . more of us can enjoy new services ... more of us can take life just a little easier because of telephones-yours and mine and six million others.
