Your Telephone Manager

**BACK TO SCHOOL!** Well, the bell in the "little red school house" has probably called your children back to school by now. That means the whole family is thrust headlong into a new routine of activities. When the daily schedule gets so very busy, it's a mighty nice feeling to know that the telephone is handy to save precious time... run extra errands. Yes, during busy days your phone is a "friend indeed," on call whenever you need it.

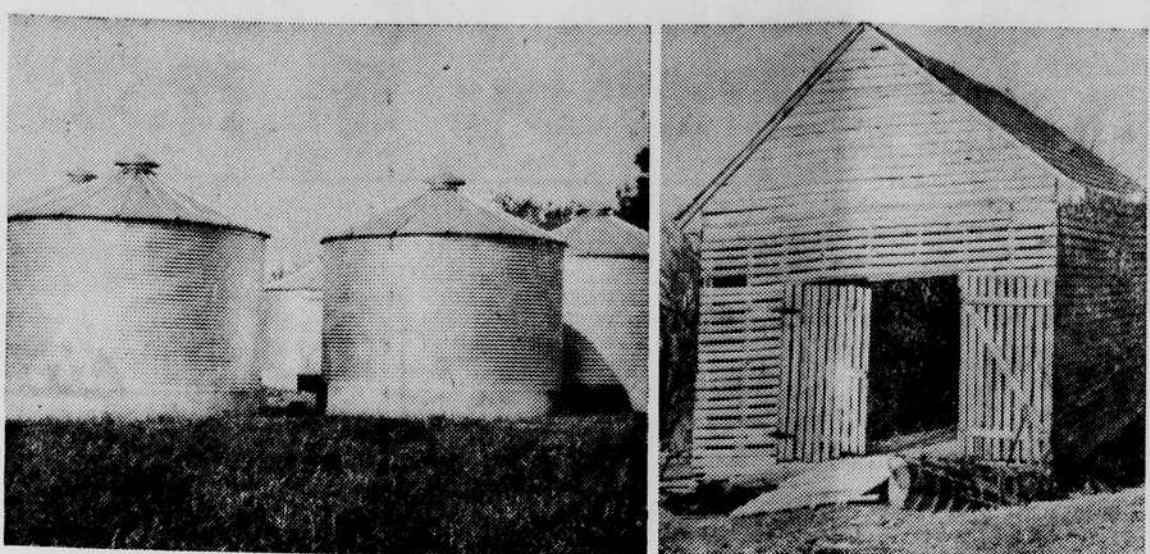

To keep this a secret  
Bill knew was unfair—

As he shared it Long Distance with friends everywhere!

Around the state—across the nation—save money—save time—call station-to-station.

**YOUR PHONE WORKS LIKE A FINE WATCH!** (But it's far more durable.) It has a lifetime guarantee, too—you never have to pay a cent for repairs. What other home convenience can you say that about? As a matter of fact, trouble calls on telephones are few and far between nowadays. For one thing, constant research makes telephone service better and better. Then, too, we have equipment in the central office that helps us spot troubles and clear them—usually before you know anything's wrong. It's all part of our job of keeping the telephone at your service, round the clock.

**OLD AND NEW**—At left is an example of the modern corn storage facilities going up on North Carolina farms as farmers realize the increasing importance of keeping their grain at harvest time. The steel bins are weather and rat-proof, while the old corn crib at the right serves as an invitation to both weather and rodent damage. Specialists at N. C. State college estimate that million bushels of new storage facilities have been added to North Carolina farms in recent weeks, as Tar Heel farmers harvest a near-record 78 million bushels of corn this fall.

**SHE DREAMED SHE DANCED ALL NIGHT WITH ROCK HUDSON ON A FUTURESQ FLOOR . . .**  
We know a lovely young secretary named Marie. Not only is Marie somewhat of a beauty herself, she has a discerning eye for things beautiful. Take music, for example. Marie thinks it's beautiful — she often hears it all night long, even in her dreams. Take Rock Hudson for another example — Marie would! She keeps a four-colored picture of him on the wall and, according to Marie, it's beautiful!

Recently Marie came into the store and among all the beautiful things we have in stock, she singled out Armstrong Vinyl Corlon in the exciting "new-as-tomorrow" Futuresq Series.  
"Now, that's REALLY beautiful!" said Marie. You'll say so, too — and goodness knows what will happen to Rock 'n music!  
But that's not our concern. We just want you to see something REALLY beautiful: Armstrong Vinyl Corlon in the Futuresq Series. It combines clear vinyl with actual bits of glittering metallics in an entirely new concept in floors. And you know what? We've got all 8 styles!
