Laura E. Lock Is Appointed Art Teacher
Laura E. Lock, well known in Black Mountain art circles, was appointed resident art teacher at DeBary, Fla., to serve for three weeks, which she has just completed with great success. She gave a demonstration, explaining how to paint a still life to a large appreciative group of art-loving people.

It is interesting to know that the Florida Federation of Art has at last established its headquarters in the historical Count Frederick De Bary mansion, which has been deeded as a gift to the Florida Federation of Art for their first state headquarters and art center. DeBary is six miles from Sanford, Fla.

The mansion is a two-story Georgia colonial house with 17 rooms in addition to its ballroom, dining rooms, and living rooms, which are wonderful for conducting art classes.

It is surrounded by two acres of landscaped property on Lake Muore, which is part of the St. John's River. This art center was opened on July 12, since which time nationally known teachers have been appointed to conduct the classes. Additional teachers will be invited to assist during the winter.

Laura E. Lock will open her DeLand, Fla., art school in November.

easy loading
luggage compartment
New convenience has been built into Chevy's big, vacation-sized luggage compartment by lowering the loading height.

NEW spaciousness inside
Inside you'll find room and more room. There's room to sprawl in, room to sit tall in—and the roofline has a respect for hats. A new flatter transmission tunnel is a boon to the middle man. Here is the kind of space that invites the family.

THRIFTIER !!!new!!!
V8 POWER
Under the hood thrift is accented in a new standard V8, engineered to deliver up to 10% more miles for every gallon while giving you more zest at normal speeds. Or you might choose its teammate—Chevy's Hi-Thrift 6—the engine that starts saving the moment you flip the ignition switch.

!NEW!
refinements for the driver
Everybody will want to be the driver when he sees the kind of pleasure a turn at the wheel brings. The driver finds Chevy has further cushioned him from engine impulses by an improved clutch linkage system. He'll also find a convenient new parking brake that automatically returns to normal height after application.

valve lifters reduce engine noise to a whisper.
