

Large Group Attends WSCS Program

Carol singing, with accompanists Mrs. J. W. Berghold, piano, Allen Barker of Asheville, violin, and Wayne Dickens, drums; songs by the Carol choir; a program of Christmas in other lands presented by Mrs. T. R. Jurwitz, Mrs. William Tendler, Mrs. Douglas Jones, Mrs. L. C. Jumper, Mrs. H. A. Kerlee, and Mrs. Berghold; an inspiring devotional by the Rev. John McWhorter, pastor; and a covered dish supper were features of the December meeting of the Woman's Society of Christian Service of the Black Mountain Methodist church Tuesday evening, Dec. 1, in the Fellowship hall in the Education building.

Members of the carol choir who participated in the program were Nancy Pollard, Joanne Hemphill, Mary Benedict, Dede Styles, Alan Styles, Stephen Earley, Candy Clark, Emily Glenn, Ginger Wallin, and Donna Nanney.

Mothers present enjoyed a special treat, as members of Girl Scout Troop 98 washed the dishes to help earn money for a trip to Washington, D. C. Those who helped were Phyllis Owenby, Ann Harris, Susan Stockton, Barbara Miller, Dede Styles, Martha Ann Basnight, and Mrs. William Styles, leader.

Anyone interested in securing the services of the Scouts may contact Mrs. Styles, phone NO 9-7466.

Research Key To Industrial Growth

Research - in this age of changing technology - is the key to industrial growth. Robert K. Drake, Manager, Advance Engineering and Laboratory at General Electric's Outdoor Lighting Department told a group of 100 engineers meeting in Asheville recently. Drake was speaking to members and guests of the Western North Carolina Engineers' Club. His topic: "Industrial Research."

He told the organization that a large percentage of industry's growth in the next three years will come from products not now produced. "To meet this challenge," he said, "many companies are organizing to do their own research and development... a necessary part of industry's operation to enhance stature, whether it be in profits, prestige, or size."

"Hendersonville," he went on to say "is the national headquarters for a specific business... we operate as a separate company. The Plant was completed in late 1957... is located on a 55-acre tract... has 235,000 square feet of floor space... consumes as much water as a city of 12,000 people... uses enough electricity to supply 3,000 homes, enough gas to supply 760 homes."
