for that extra flick of flavor

JFG SPECIAL COFFEE

Most everywhere folks are noticing that there really is extra flavor in JFG Special Coffee. It's there because of a very special blend of select coffee beans. And also, because JFG is so fresh. You see, it's roasted practically next door, so it comes to you fresh as fresh can be.

So have a cup and you'll agree, there's extra flavor in JFG... "the best part of the meal."

What to Do in Black Mountain

Temperance ... Tid-Bits

Alcohol and Accidents
 Alcohol continues to be a startling factor in accidents. According to the National Safety Council the cost of accidents (traffic, occupational, and home accidents) to the people of the United States in 1955 was \$19,300,000,000. The estimated cost of all traffic accidents in 1955, according to the Council, was \$4,500,000,000. Some progress has been made in appraising traffic accidents in which alcohol is a factor. Fatal traffic accidents in the United States in which liquor was involved are estimated all the way from 20 per cent to 50 per cent. The National Safety Council says that a minimum of 23 out of 100 fatal traffic accidents involved liquor. Traffic accidents in the United States cost 36,301 deaths in 1934 and 38,300 deaths in 1955, with the annual average for the 22 years running close to 33,899. Fatal traffic accidents in the past 22 years, therefore, totaled 745,792 and the number of these accidents involving alcohol, according to the most conservative authorities, ranges from 20 per cent, 149,158, to 40 per cent, 298,317.

An increasing proportion of both home and occupational accidents involves the use of alcohol, beverages; therefore a larger part of the total loss should fairly be credited to it.

In a study of alcohol and mental disease published in Allied Youth November, 1942, page 5, Dr. Horatio M. Pollock, former director of the New York State Department of Mental Hygiene, estimated that the annual loss of productive human capacity due to drunkenness, alcoholism, and alcoholic mental disease in the United States is more than \$5,000,000,000 a year.
