The base of Niagara Falls on Ontario, Canada, is one of the most awe-inspiring sights in the world. The sound of the cascading water makes it impossible to hear your own voice. These tourists got their breath back long enough to take a picture that will always remind them of the splendor of the scene.

Bowling in Muskoka, Ontario, looks as big as it is in the United States. However, Muskokans have a different twist. Instead of being confined to a crowded alley, Canadians and their guests bowl in the great outdoors. In such weather — why not?

### SQUARE DANCE WELL ATTENDED

The first community square dance, held Saturday night, July 16, was deemed successful from the participation viewpoint. The dance was sponsored by Operation Youth. In spite of threatening weather, a good crowd turned out for the dance. Although there was not much income from the dance, a good time was had by all. Operation Youth wishes to thank all those who made the dance possible, in particular, A & P Stores, the towns of Black Mountain, and all those who helped with calling the dances. Similar dances will be held in the very near future.

# Will you pay \$750 for \$1000?

You can do it by saving just 63¢ a day for 40 months

Maybe you haven't realized it before, but it takes only 63¢ a day to buy a \$25 Savings Bond every month. Keep saving this way for forty months, and at maturity your Bonds will be worth \$1,000.

There are two especially good things about this \$1,000 nest egg. You buy it with money you could easily have dribbled away. It costs you only \$750—in easy installments.

Results like these make U.S. Savings Bonds one of the best ways in the world to save. Why don't you start saving now with U.S. Savings Bonds?

**SOME ADVANTAGES YOU MIGHT THINK ABOUT**

You can save automatically with the Payroll Savings Plan. Tell your company how much to save from your pay for Bonds. This way you won't forget to save and your savings will add up automatically.

You now get 3 1/2% interest, at maturity. This new rate, which went into effect June 1, 1950, makes your Bond money grow faster. Series E Bonds now mature 14 months earlier than before—in just 7 years, 9 months. Bonds bought before June 1, 1950, earn more, too—an extra 1/2% from then to maturity.

You can get your money, with interest, any time you want it. Bonds are a ready reserve that you can cash any time at any bank. But it pays to keep them.

Your money is guaranteed by the U.S. Government. Bonds are an absolutely riskless investment. The Government promises you that the cash value of your Bond will not drop—it can only grow.

Your money can't be lost or stolen. The Treasury will replace your Bonds, free, if anything happens to them.

You save more than money. You help save the peace with every Bond you buy. Peace costs money—money for science, education, military strength. And the money you save helps keep our nation's economy strong.

Here's how you can reach your savings goal with U.S. Savings Bonds in just 7 years, 9 months

If you want about each week save	\$2,500	\$5,000	\$10,000
	\$5.45	\$10.85	\$21.70

## CALL CP&L

Don't get us wrong—there is plenty of electricity. However, the quality of service delivered to appliances in your home depends on two things. First, the adequacy of your own wiring—second, adequacy of the Company's equipment serving your neighborhood.

You have complete control over the situation in your home because you know exactly when you plan to add an air conditioner, electric clothes dryer, or some other major current consuming device. You can help us insure high quality service to your home by telling us when you plan to add major appliances.

Don't deprive yourself of the comfort of air conditioning or the convenience of other electrical equipment so necessary to modern living. Just be sure you get the best possible service by calling us before adding those major appliances. Chances are our facilities are adequate. If not, we will make them so.
