A tender pie crust is a must with this light-as-a-cloud chiffon

filling. You can make a wonderful pastry with self-rising flour.

This flour, so convenient for making biscuits and other quick breads, produces an unusually tender, flavorful pastry.

LIME COCONUT CHIFFON PIE

Cut or rub shortening into flour. Sprinkle with water, mixing lightly until dough begins to stick together. Turn out on floured board or pastry cloth and press dough together. Roll out ½ inch thick and line 9-inch pie pan. Trim pastry 1 inch larger than pie pan, fold under edge and flute. Prick bottom and sides of pie shell with fork. Bake in very hot oven (450°F.) about 10 minutes or until lightly browned. Cool and fill with Line-Coconut Filling.

LIME-COCONUT FILLING

Soften gelatin in water. In top of double boiler, mix egg yolks, ½ cup sugar, lime rind and juice. Cook over boiling water about 5 minutes, stirring constantly. Stir in softened gelatin until completely dissolved. Mix in cocomut and food coloring. Beat egg whites and salt until stiff. Gradually beat in ½ cup sugar. Fold beaten egg whites into lime mixture. Turn into cooled pie shell and chill until set. Decorate with whipped cream, if desired. Makes one 9-inch pie.
