

Sen. Erwin Says:

reflects a moderate approach to legislation. Earlier this session the Senate rejected the Medical Care for the Aged bill, and the House disapproved of the Urban Affairs Plan. It appears unlikely that this Congress will enact the Mass Transit, Youth Employment, or Federal Aid to Education bills. Congress has cleared legislation governing Public Works, Communication Satellites, and Welfare Program Revision. Corporate, Excise, and Travel taxes, and Sugar Controls were extended earlier during the session. A Revenue Callup Resolution granting the President standby authority until February 28, 1963 to call to active duty 150,000 members of the Armed Forces Ready Reserve won quick approval. I think Congress has approved a constructive legislative program and that its moderate approach reflects the sentiments of the people. GORE AMENDMENT—I am glad to say that the Gore Amendment to H. R. 10, which would apply a special tax rule to lump sum payments of employee pension plans, has been deleted by the Senate-House Conference Committee. It was retroactive legislation, and it was not just when compared with other laws governing pension funds. FARM LEGISLATION—The Senate has been passing farm legislation most of this session. The bill approved by Congress has some good pro-

visions in it. Candor compels me to say that there are many things in the bill which I do not favor. In essence, Congress had to pass a bill, because the alternative of no action was worse. If no bill had been passed, the permanent law granting high price supports with virtually no controls on wheat and feed grains would have operated again. For some years we have had wheat and feed grains running out of our ears. We have had a system with virtually no controls on feed grains, but with high price supports. I have the conviction that if we are going to have price supports, it is just as essential that we have controls that are effective on wheat and feed grains. Cotton, tobacco, and peanut programs have effective controls along with price supports. These programs have worked well. The current farm bill illustrates once more that in considering major legislation it is seldom that a measure is all good or all bad. The farm alternatives are plain, but as yet Congress has not given a clear cut answer.

Another in a series of articles in which the North Carolina Department of Motor Vehicles explores some of the significant facts behind last year's traffic accident toll. The State Department of Motor Vehicles reminds drivers that what you don't see can hurt you! In a special study of last year's 60,844 highway accidents, the vehicles agency revealed that 107 death-dealing mishaps were attributed to vision obstruction. In 41 of the cases windshield wipers were obscured by rain, snow, fog, sleet, etc., and in 66 cases the driver's vision was obscured by buildings, signs, bushes, crops, embankments, parked cars, etc. Vision, or lack of it, was not indicated in the rest of the line-up. In all there were 1061 death-dealing mishaps in which 1254 persons died.

WASHINGTON — Congress, which convened this year on January 11, is expected to conclude its work either this week or early next week. Conference bills on Trade, Drug Controls, Tax Revision, and Self-employed Retirement Tax Deductions are likely to be passed by Congress in the final days of the session. A Postal Revision-Employees Pay bill may be approved by both Houses prior to adjournment. Congressional approval of most legislative measures this session centered on whether or not the bill reflected a moderate approach. This is reflected particularly in the Tax Revision Bill, and the Communications Satellite bill, which generated a filibuster by reason of its moderate approach. Even the watered-down Farm bill, approved by Congress after a third try,

SUNDAY SCHOOL LESSON and CHURCH DIRECTORY!

God
Lesson for October 14, 1962

WHAT is more important than God? Even to ask the question is absurd. The Bible is so filled with truth about God that a lifetime of study could not draw from the Scripture all that is there to be found. Because there is such an "embarrassment of riches" we have to make some selection here. We mention only a few great truths about God. Dr. Foreman here is found in the 17th chapter of Acts. The passage, Acts 17:22-29, is part of a sermon Paul preached to a pagan audience in the city of Athens. If you had a chance to speak to educated non-Christians about God, how would you start? What would you say first?

Creator and Lord
Paul begins by reminding the Athenians that they were not atheists. Their trouble was that they believed in too many gods. They were so anxious not to neglect any god that they had actually put up an altar to "An Unknown God." Whoever was responsible for that altar must have felt there was some other God out of sight. Paul brings the word that this "unknown god" is after all, the true one. He is "the God"—the only one. No part of this earth is outside his realm... only that is saying too little; in this space-minded age Paul might well have said that God made the Universe and everything in it. He is the God of every star and every planet, no matter how many light-years away. As Creator, he does more than make worlds without number. He peoples them with inhabitants without number. He makes life possible here on this earth. Wherever in this vast universe life exists—it does—there it is God who is both Creator and
