Plant Hunters Technical Sergeant Ray C. Cordell, son of Mrs. Minnie B. Cordell, Rt. 1, Swannanoa,

NO. 12 - Single Copy, 10c

The Black Mountain Garden Sgt. Cordell, an administra- club held their Thanksgiving tive specialist, has been as meeting on Friday, Nov. 16, signed to the 4520th Combat in the education building of the Methodist church. About The sergeant, a graduate of 60 members and eight guests tered the service in December two huge turkeys in spite of 1950. He and his wife, the the attraction of superior side former Geraldine A. Mielke of dishes, relishes, salads, and Marshfield, Wis., have two enticing desserts, plain traditional and with modern

embroidery. The program was centered on plant hunters. What makes plant hunter hunt plants anyhow? The realist would say, "Money-he gets paid". The philanthropist would say, "Praise-he gets honored". scientist would say, "Knowledge-he learns more secrets and gets more satisfaction than stay-at-homes". Perhaps, but even so the rewards seem small compared to the struggles.

Take the earliest plant hunt-

ers known to be in America away back when the colonies were small-Michaux, who is commemmorated by a plaque at our city hall - came to gather plants for the French king's gardens at Versailles and was thrilled by the abundance of varieties in our mountains. He came in spring and again in December so that he Principal speaker for the could gather seeds. Many of Black Mountain, will be turn the most precious. But observed the week of Nov. 25- most valuable diary of which 30 each evening at 7:30. Mr. only a few water stained pages strange plant like galax. Dr. Asa Gray finding this record "Shortia". Then began the search for the originals which lasted for 60 more years before the source of Michaux's discovery was located in South Carolina into which he had walked without knowing the difference. Meanwhile most of Michaux's plants had been sent by Queen Antoinette to her uncle in Vienna as a gift, an act not sanctioned by even the "Guild of Hare Brained Movie Stars" of today. A strange part of Michaux's story is the record of his hav-Approximately 125 9-hole ing brought to this country

The first American plant til he knew botany so at 40 covered a tree in Georgia which he took to Philadelphia first hole-in-one of the day and named "Franklinia" for Franklin, Never since has this Ted Luckadoo had a most tree been found in its wild explaining the various period unusual hole-in-one in the state all present plants being types, many of which were play-off round. Ted Tipton's descended from the Philaball was about two feet to delphia ones. Look for it

> After the turn of the century the Department of Agriculture hired Dr. David Fairchild who was greatly interested in plant hunting. He had done some hunting in Java supported by a wealthy friend. He felt that plant importation might be a great benefit to agriculture. He arranged private funds to finance plant hunting and sought trained and enthusiastic men budgets are included for this
