WHITE HOUSE PHONE NUMBER CHANGED FOR FIFTH TIME

President Johnson's telephone number in the White House was recently changed from National 8-1414 to 456-1414, according to Tip Johnson, Manager of Southern Bell in Asheville.

The Executive Mansion now has exclusive use of the 456 prefix instead of sharing National-8 with thousands of other telephone customers. This is said to be the fifth time that the White House telephone number has been changed since the first telephone was installed for President Rutherford B. Hayes who resided there back in 1878.

The first number was the

It's Hot In Florida

In Sarasota for the annual meeting of the council of state governments last week, we had an opportunity to view the tropics, close up, in the summer time.

The weather was unusually hot, so the natives told us, and we can well believe it.

easiest to remember—"one." Then in 1897, President McKinley had number 957. In 1904, Main 6 was used to call Theodore Roosevelt. Before 1929, if the President consented to talk to a caller, it was necessary for him to leave his office and enter a booth. Herbert Hoover was the first President to have a telephone installed on his desk. His number was National 1414. Then in 1952, it changed to National 8-1414.

The oven-like heat came rushing in and baked you through and through the minute you opened the door and stepped out of the air-conditioned buildings.

Colony Beach Resort, where all the sessions were held, is situated right on the Gulf. We stayed at Far Horizons which is about one mile north of CBR on Longboat Key, west of Sarasota. In fact Longboat Key runs right out into the gulf.

The sessions were very much worthwhile, the orange juice was fresh and cold, and the hospitality of the Floridians is unsurpassed. We enjoyed everything—except the weather.

Southern Progress

The South is making progress in many fields. We learned at the sessions from speakers representing most of the southern states that we are moving ahead in education, although not as fast as the rest of the nation, in mental health, and industrial training.

It was good to know that North Carolina ranks among the best in the country with our system of industrial education centers, technical institutes, and comprehensive community colleges.

Florida has more community colleges than any other southern state and is building or creating area universities at a rapid rate. They are short of faculty to man some of the newly established schools, but then so are all the other states.

It was an excellent meeting and very profitable to the some 350 attending.

Convention Notes

Bud Wilkinson may not be running as strong in Oklahoma as it sounds from the outside. Word from the Sooner at the conference was that he is doing his campaigning chiefly in the cities and leaving the rural areas to his Democratic opponent.

Some of the Oklahoma delegates were not happy because they said that when the former University of Oklahoma football coach came from Minnesota 17 years ago he was a registered Democrat, but switched and registered as a Republican in order to get on the ticket.

Mississippi, so one of the

delegates said, has repealed the compulsory school attendance law. We didn't have time to check into this and my informer didn't say why.

Delegates from all the states were greatly concerned by the decision of the Supreme Court which held that both houses of the state legislature must be elected on the basis of population alone.

This is a dramatic change from the system that has been used since the nation was formed. Most of the states, in fact I believe all, now elect the house on a mixture of geography and population and the senate roughly, very roughly, on population.

This means that in North Carolina each county has one representative with an extra 20 being divided among the larger counties. Under this system Buncombe has two and Mecklenburg five.

Second decision was by a Federal Court which ruled that the milk commission of the State of Florida could not regulate the sale of milk in the state.

Trying Session

Discussing these new developments some North Carolina lawmakers attending the convention in Sarasota last week expressed the opinion that "it won't be any fun to serve in the legislature during the 1965 session. We had plenty of problems before, but add these two new rulings by the courts and you have enough to keep us busy for the entire session if we did nothing else."

No one can predict what the results of the ruling by the Supreme Court will be but all indications are that the next few years will see many changes.

A Lot of Time—

If you have two 15-minute breaks a day at your work and drink one cup of coffee at each, you're spending the equivalent of three and a half work weeks a year on coffee breaks.

... And you're drinking 31 gallons of coffee annually!

Don't Stay Away From Church—

because you are poor. There is no admission charge because it rains. You go to work in the rain.

because it is hot. It's hot at your house too.

because it is cold. It's warm and friendly inside.

because no one invited you. People go to the movies without being begged.

because we have an emotional religion. How about that last baseball game?

because you have little children. What if you didn't any longer have them? We have a well supervised nursery.

because you don't like the teacher. He is human like you.

because your job makes you tired. You may lose your job.

because there are hypocrites. You associate with them daily.

because you have company. They will admire your loyalty if you bring them along; or tell them to wait till you return.

because you need a little week end vacation occasionally. If your soul takes a vacation from God, it's not good.

because your clothes are not expensive. Our church

is not supposed to be a fashion show anyway.

because our church standard is too high. Take a look at the Bible standard if you think ours is too high.

because the church always wants money. So does your grocer.

because you have plenty of time ahead of you to get saved. Are you sure you do?

REV. STAMEY SENDS THANKS

The following note was received last week from Rev. Ben Stamey, former pastor of the Swannanoa Methodist Church:

"I wish to express appreciation to all my dear friends and former neighbors who have recently been so kind to send greetings to my family and me. My wife's father, D. M. Swaringen of Concord, is doing nicely after surgery at N. C. Baptist Hospital and my own health is improving so that I will be completely recovered in a month at least, maybe sooner. I am now taking a "vacation" on doctor's orders."

"Ask any Camel smoker!"

Why Camel?
Well, like most people, Camel smokers shopped around a lot before they made Camel their brand. They still try another smoke once in a while when they run out.
But, for their steady choice, they go for quality. And that's Camel.

The best tobacco makes the best smoke. It's as true today as ever before.
That's why, year after year, Camel remains the overwhelming choice of smokers who prefer regular cigarettes...the millions of men and women who enjoy the smoking pleasure that goes with
