## Swannanoa Woman's Club Installs New Officers

The Swannanoa Woman's Club held its annual Installation Dinner Meeting at the Swannanoa School last Tuesday evening, April 1. Husbands of the club members and the Swannanoa Men's Club and their wives, were guests at the dinner, guest talk, and installation of new officers of the Woman's Club.

Following the dinner, Mrs. John Kelly introduced the guest speaker for the evening, Dr. Sam Walker. Dr. Walker, a general and thoracic surgeon from Asheville, was a volunteer physician for 2 months in South Vietnam. Although the State Department paid for his travel, Dr. Walker received no pay for his work. He was commended by both the AMA and the U. S. State Department for his work in Vietnam.

With the use of slides and with his delightful manner, Dr. Walker was able to give those attending an understandable, first-hand look at Vietnam, its people and its problems. Dr. Walker conveyed the exceptional need for doctors in South Vietnam. The entire country has only 500 native doctors to minister to its civilians that are being, unlike in most wars, injured at a very high rate. Dr. Walker estimated that for every soldier injured, 10 civilians are injured.

## Friends Of Library To Hear Dr. Stewart

That God has no place in human behavior patterns is some of present-day thinking about which Christians need to be seriously concerned. This concern and similar problems will be discussed by Dr. James A. Stewart on Monday, April 14th, at 8:00 p.m. when he speaks to the Friends of the Library in Black Mountain about "Revolution in Philosophy."

Philosophical ideas usually take about 25 years to reach the man on the street, the person in business and even the normal church-goer. In our present day we are now beginning to experience radical changes in thinking about standards of right and wrong as well as how to arrive at truth about life itself. These changes represent serious implications for Christian believers. This "revolution" is part of what lies behind student rebellions and challenges to accepted patterns of thought, ethics, and behavior. These challenges are a problem which the Christian Church must face in today's world.

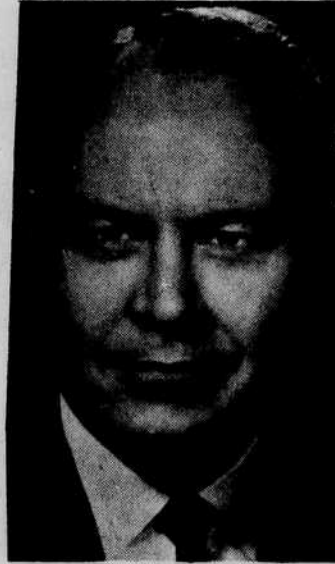

Dr. Stewart, a resident of Black Mountain, will deal with these challenges and problems in his talk. As Professor of Philosophy at Asheville - Biltmore College, Dr. Stewart is a competent thinker and speaker. He was born in Belfast, Northern Ireland, and came to the United States in 1927. He received his early education at Municipal College of Technology in Belfast, at Missionary Training College
